Fraud Edward J. Balleisen, 2017-01-09 A comprehensive history of fraud in America from the early nineteenth century to the subprime mortgage crisis The United States has always proved an inviting home for boosters sharp dealers and outright swindlers Worship of entrepreneurial freedom has complicated the task of distinguishing aggressive salesmanship from unacceptable deceit especially on the frontiers of innovation At the same time competitive pressures have often nudged respectable firms to embrace deception As a result fraud has been a key feature of American business since its beginnings In this sweeping narrative Edward Balleisen traces the history of fraud in America and the evolving efforts to combat it from the age of P. T. Barnum through the eras of Charles Ponzi and Bernie Madoff Starting with an early nineteenth century American legal world of buyer beware this unprecedented account describes the slow piecemeal construction of modern regulatory institutions to protect consumers and investors from the Gilded Age through the New Deal and the Great Society It concludes with the more recent era of deregulation which has brought with it a spate of costly frauds including the savings and loan crisis corporate accounting scandals and the recent mortgage marketing debacle By tracing how Americans have struggled to foster a vibrant economy without enabling a corrosive level of fraud this book reminds us that American capitalism rests on an uneasy foundation of social trust

Foundations of Real-World Economics

John Komlos,2023-03-20 The 2008 financial crisis the rise of Trumpism and the other populist movements which have followed in their wake have grown out of the frustrations of those hurt by the economic policies advocated by conventional economists for generations Despite this textbooks remain frozen in time continuing to uphold traditional policies as though nothing has happened Foundations of Real World Economics demonstrates how misleading it can be to apply oversimplified models of perfect competition to the real world The math works well on college blackboards but not so well on the Main Streets of America This volume explores the realities of oligopolies the real impact of the minimum wage the double edged sword of free trade and other ways in which powerful institutions cause distortions in mainstream models Bringing together the work of key scholars like Kahneman Minsky and Schumpeter this textbook takes into consideration the inefficiencies that arise when the perfectly competitive model is applied to the real world dominated by multinational oligopolies The third edition has been updated throughout bringing in new material on the financial crises the rise of populism racism inequality climate change and the Covid 19 pandemic A must have for students studying the principles of economics as well as micro and macroeconomics this textbook redresses the existing imbalance in economic teaching as John Komlos focuses on the paradigm of humanistic economics

Consumer Protection and Online Auction Platforms Christine Riefa,2016-03-03

Online auctions have undergone many transformations and continue to attract millions of customers worldwide However these popular platforms remain understudied by legal scholars and misunderstood by legislators This book explores the legal classification of online auction sites across a range of countries in Europe Including empirical studies conducted on 28 online auction websites in the UK the research focusses on the protection of consumers economic rights and highlights the shortcomings that the law struggles to control With examinations into important developments including the Consumer Rights Directive and the latest case law from the CJEU on the liability of intermediaries Riefa anticipates changes in the law and points out further changes that are needed to create a safe legal environment for consumers whilst preserving the varied business model adopted by online auction sites The study provides insights into how technical measures as well as a tighter legislative framework or enforcement pattern could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves

Ponzimonium: How Scam Artists are Ripping Off

America Commodity Futures Trading Commission (U.S.),2012-01-20 Fortunately more than ever before con artists are being

apprehended and prosecuted Federal state and local law enforcement officials have reported enormous increases in tips and criminal activity since the economic calamity began in 2008 Cash redemptions are dangerous for Ponzi schemes because when the money runs out folks start talking For example at any one time enforcement staff at the U S Commodity Futures Trading Commission CFTC are investigating anywhere between 750 and 1 000 individuals or entities for various violations of the law Increases in tips and fraud cases have also occurred at the U S Securities and Exchange Commission SEC at the Federal Bureau of Investigation FBI in the states and various localities around the world The stories in this book are actual CFTC cases stemming from investigations that began with the economic downturn These are real cases real fraudsters with unfortunately very real victims While the fundamental nature of the writing in such files is as you would imagine very bureaucratic this script is anything but bureaucratic Commissioner Chilton has worked in public service for over a quarter of a century and has found that one of the most important things that can be done is to make government less puzzling and perplexing less mysterious and yes less bureaucratic While Commissioner Chilton can t say there has been any monumental change in how folks see their government over the years Commissioner Chilton continues to try and do his part by communicating in a way that lets folks in on what is going on This writing is an effort to continue that work Commissioner Chilton hopes it will be a satisfying read but more importantly maybe some folks will avoid the tremendous tragedy that so many of our fellow citizens have endured

We, the Data Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In We the Data Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights We the Data gives us a foundation upon which we claim human rights in the age of data
