**Rising Star, Setting Sun** John T Shaw, 2018-05-01 After winning the presidency by a razor thin victory on November 8 1960 over Richard Nixon Dwight D Eisenhower s former vice president John F Kennedy became the thirty fifth president of the United States But beneath the stately veneers of both Ike and JFK there was a complex and consequential rivalry In Rising Star Setting Sun John T Shaw focuses on the intense ten week transition between JFK s electoral victory and his inauguration on January 20 1961 In just over two months America would transition into a new age and nowhere was it more marked than in the generational and personal difference between these two men and their dueling visions for the country they led The former general espoused frugality prudence and stewardship The young political wunderkind embodied dramatic themes and sweeping social change Extensively researched and eloquently written Shaw paints a vivid picture of what Time called a turning point in the twentieth century as Americans today find themselves poised on the cusp of another watershed moment in our nation s history

**The Long Game** Rush Doshi, 2021-06-11 For more than a century no US adversary or coalition of adversaries not Nazi Germany Imperial Japan or the Soviet Union has ever reached sixty percent of US GDP China is the sole exception and it is fast emerging into a global superpower that could rival if not eclipse the United States

What does China want does it have a grand strategy to achieve it and what should the United States do about it In *The Long Game* Rush Doshi draws from a rich base of Chinese primary sources including decades worth of party documents leaked materials memoirs by party leaders and a careful analysis of China s conduct to provide a history of China s grand strategy since the end of the Cold War Taking readers behind the Party s closed doors he uncovers Beijing s long methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential strategies of displacement Beginning in the 1980s China focused for two decades on hiding capabilities and biding time After the 2008 Global Financial Crisis it became more assertive regionally following a policy of actively accomplishing something Finally in the aftermath populist elections of 2016 China shifted to an even more aggressive strategy for undermining US hegemony adopting the phrase great changes unseen in century After charting how China s long game has evolved Doshi offers a comprehensive yet asymmetric plan for an effective US response Ironically his proposed approach takes a page from Beijing s own strategic playbook to undermine China s ambitions and strengthen American order without competing dollar for dollar ship for ship or loan for loan

*Publications Combined: Fake News, Conspiracy Theories, and Lies: Information Laundering In the 21st Century*,2018-09-06 The purpose of this research broadly speaking is to expose the threat that fake news poses to our national security This thesis answers the question Can the information laundering model or a modified version of it be used to explain how the internet is exploited to spread fake news and the resulting threat to the United States I assert that a well crafted narrative whether true or false can be spread rapidly

online due to the accessibility and interconnectedness of the internet ecosystem I then articulate how these narratives can be further accelerated and disseminated when propagandists take advantage of existing processes that improve the customization ease of access and availability of information online I do this by modifying the information laundering model and then using the new model to examine the interconnectedness of search engines blogs social networking platforms and media academic outlets and how these connections can be exploited to launder false or purposefully misleading information into public discourse Finally I demonstrate how this process allows adversarial nations criminals and malicious actors to increase public discord undermine democracy and threaten Americans physical and cognitive security Contains the following studies 1 Fake News Conspiracy Theories and Lies An Information Laundering Model for Homeland Security 2 THE COMMAND OF THE TREND SOCIAL MEDIA AS A WEAPON IN THE INFORMATION AGE 3 PUTIN S PROPAGANDA WAR IS HE WINNING 4 Cyber Terrorism and Cyber Crime There Is a Difference 5 CYBERDETERRRANCE IN 2035 REDEFINING THE FRAMEWORK FOR SUCCESS 6 Countering Russian Active Measures
