

The Risk Report Card

VW do Brasil summarizes its strategy risks on a Risk Report Card organized by strategic objectives (excerpt below). Managers can see at a glance how many of the identified risks for each objective are critical and require attention or mitigation. For instance, VW identified 11 risks associated with achieving the goal "Satisfy the customer's expectations." Four of the risks were critical, but that was an improvement over the previous quarter's assessment. Managers can also monitor progress on risk management across the company.

Ingo Trauschweizer, Steven M. Miner, 2014-06-01 Since the end of the Cold War a new dynamic has arisen within the international system one that does not conform to established notions of the state s monopoly on war In this changing environment the global community must decide how to respond to the challenges posed to the state by military threats political and economic decline and social fragmentation This insightful work considers the phenomenon of state failure and asks how the international community might better detect signs of state decay at an early stage and devise legally and politically legitimate responses This collection of essays brings military and social historians into conversation with political and social scientists and former military officers In case studies from the former Yugoslavia Somalia Iraq and Colombia the distinguished contributors argue that early intervention to stabilize social economic and political systems offers the greatest promise whereas military intervention at a later stage is both costlier and less likely to succeed Contributors David Carment Yiagadeesen Samy David Curp Jonathan House James Carter Vanda Felbab Brown Robert Rotberg Ken Menkhaus
