There is an extremely high demand for massage therapists. With increased population growth, awareness, health consciousness, and active lifestyles, the United States Bureau of Labor Statistics (BLS) expects massage therapist jobs to grow another 20-30% in the next couple of years. Because of the growing demand for massage therapists, many are becoming more interested in this professional career. Unfortunately, most do not know what the requirements are, how to get into the field, and how to thrive in a profession that is saturated with so many other therapists. Similarly, many others who are already practicing as massage therapists do not know about the options to advance their careers through either additional training, the appropriate networking opportunities, diversification, specialization, and more.

All the best to you, and here's to your career success!
