Vessel Health and Preservation: The Right Approach for Vascular Access Nancy L. Moureau, 2019-06-10 This Open access book offers updated and revised information on vessel health and preservation VHP a model concept first published in poster form in 2008 and in JVA in 2012 which has received a great deal of attention especially in the US UK and Australia The book presents a model and a new way of thinking applied to vascular access and administration of intravenous treatment and shows how establishing and maintaining a route of access to the bloodstream is essential for patients in acute care today Until now little thought has been given to an intentional process to guide selection insertion and management of vascular access devices VADs and by default actions are based on crisis management when a quickly selected VAD fails The book details how VHP establishes a framework or pathway model for each step of the patient experience intentionally guiding improving and eliminating risk when possible The evidence points to the fact that reducing fragmentation establishing a pathway and teaching the process to all stakeholders reduces complications with intravenous therapy improves efficiency and diminishes cost As such this book appeals to bedside nurses physicians and other health professionals

Sustaining the Implementation of Evidence-Based Interventions in Clinical and Community Settings Nicole Nathan, Maji Hailemariam, Alix Hall, Rachel C. Shelton, Celia Laur, 2023-04-24

to Practical Health Promotion Mary Gottwald, Jane Goodman-Brown, 2012-08-16 b This book should become a key textbook of choice for a wide range of health care professionals and students. It encourages autonomous learning and helps develop critical analytical skills. Each chapter follows a logical progression using key objectives which relate to a range of activities and up to date evidenced based sources of information. The range of depth and breadth of material is contemporary and as such should meet the academic managerial and clinical background of the reader. Helen Matthews Senior Lecturer in Health and Community Care University of West London UK. This text represents a useful well pitched contribution. The book is densely packed but skilfully written to feel comfortable for the reader challenging in places but never to the extent to discourage engagement. Jane Thomas Acting Head of College of Human and Health Sciences Swansea University UK. Do you have difficulties deciding which health promotion activities facilitate behavioural change? This accessible book focuses on the practical activity of health promotion and shows students and practitioners how to actually apply health promotion in practice. The book uses case scenarios to explore how health promotion activities can empower individuals to make decisions that change their health related behaviour. This book explores the role of health promotion and explores a number of practical approaches such as developing client's self awareness and skills working with groups and communities and social marketing and the mass media. The book includes Learning outcomes, think points and implications for practice giving readers guidance on engaging with health promotion. Multi setting case studies including schools, prisons and the local community. Activities to develop self awareness, self esteem, assertiveness, empowerment, communication and life skills. A Guide to Practical Health Promotion is suitable for allied health professionals, nurses and students involved in health promotion practice and will help you to build confidence in your health promotion skills.

Psychiatric and Mental Health Nursing for Canadian Practice Wendy Austin, Mary Ann Boyd, 2010-01-01 Rev ed of Psychiatric nursing for Canadian practice Wendy Austin Mary Ann Boyd
