Maybee,2019-09-16 If the future is accessible as Alisa Grishman one of 55 million Americans categorized as having a disability writes in this book s cover image then we must stop making or constructing people as disabled and impaired In this brave new theoretical approach to human physicality Julie E Maybee traces societal constructions of disability and impairment through Western history along three dimensions of

embodiment the personal body the interpersonal body and the institutional body Each dimension has played a part in defining people as disabled and impaired in terms of employment healthcare education and social and political roles Because impairment and disability have been constructed along all three of these bodies unmaking disability and making the future accessible will require restructuring Western institutions including capitalism changing how social roles are assigned and transforming our deepest beliefs about impairment and disability to reconstruct people as capable Ultimately Maybee suggests unmaking disability will require remaking our world **Enhancing Your Child's Behavior** Robert E.

Crandell,2022-04-15 In Twenty Two Cents an Hour Doug Crandell uncovers the harsh reality of people with disabilities in the United States who are forced to work in unethical conditions for subminimum wages with little or no opportunity to advocate for themselves while wealthy CEOs grow even wealthier as a direct result As recently as 2016 the United States Congress enacted bipartisan legislation which continued to allow workers with disabilities to legally be paid far lower than the federal minimum wage Drawing on ongoing federal Department of Justice lawsuits the horrifying story of Henry s Turkey Farm in Iowa and more Crandell shows the history of the policies that have led to these unjust outcomes examines who benefits from this legislation and asks important questions about the rise of a disability industrial complex Exposing this complex which is rooted in profit lobbying and playing on the emotions of workers parents and families as well as the public Crandell challenges readers to reexamine how we treat some of our most vulnerable fellow citizens Twenty Two Cents an Hour forces the reader to face the reality of this exploitation and builds the framework needed for reform Perfectionism and Gifted
