

Risk Management Policy

1.0 Purpose

The purpose of the Risk Management Policy is to embed within Mighty River Power a group-wide capability in risk management, to provide a consistent method of identifying, assessing, controlling, monitoring and reporting of existing and potential risks faced by the Mighty River Power Group. The policy sets out the Company's approach to risk and risk management.

All Mighty River Power employees have a responsibility to manage risk in accordance with the Risk Management Policy and risk management framework.

2.0 Scope

This policy is applicable to all Mighty River Power business activities including subsidiaries and Mighty River Power - controlled Joint Ventures.

3.0 Policy

Mighty River Power accepts some commercial risks in order to achieve its strategic objectives and to deliver enhanced shareholder value. These are embodied in the Company's risk appetite framework which is set and regularly reviewed by the Board.

Mighty River Power has a common and systematic portfolio approach for managing risk across the Company, which increases risk awareness, ensures the appropriate management of risks and makes the business risk profiles transparent, thereby enabling risks to be compared and aggregated.

Mighty River Power maintains a risk management framework, overseen by the Risk Assurance Officer, which sets out the procedures applying under this policy. All parts of Mighty River Power's business are required to implement and use this common risk management framework.

Mighty River Power actively anticipates and manages risks, taking advantage of opportunities and taking all reasonable measures to contain potential hazards in line with applicable risk tolerances. The external and internal risks facing Mighty River Power are dynamic and management proactively:

- utilises experience across the Company through knowledge sharing;
- deals with ambiguity, uncertainty and increasing complexity;
- prioritises, makes decisions and implements solutions on a timely basis;
- communicates and reports on risks in a transparent and timely manner;

- recognises and acts on opportunities as they occur; and
- works to ensure results despite changing business environments.
- fosters organisational resilience to deal with significant unforeseen events and impacts

Risk management is integrated into all of the Mighty River Power's strategic, operational planning and budgeting processes, performance measurement and day-to-day operations.

4.0 Responsibility

The Company's management operates a Risk Management Committee whose mandate is to promote risk awareness and appropriate risk management to all staff and to monitor and review risk activities as required. Membership of the Risk Management Committee is made up of representatives from the Executive Management Team and is chaired by the Chief Executive. The Risk Management Committee will meet at least quarterly.

The overall accountability for ensuring that risk is managed effectively lies with the Board with risk management responsibility delegated to the Chief Executive. The Board:

- decides, by reference to the various categories of risk inherent in the Company's business, what level of risk is appropriate in each category; and
- ensures the Company has effective policies and procedures in place to manage its risks.

The policy is overseen by the Risk Assurance and Audit Committee of the Board.

Policy implementation is monitored on a day-to-day basis by the Risk Assurance Officer, who has a dual reporting line to the Chief Executive and the Risk Assurance and Audit Committee.

Management is responsible for establishing, communicating and implementing effective risk management and internal control frameworks.

The Risk Management Policy is reviewed annually by the Risk Assurance and Audit Committee and approved by the Board.
