River Space Design:

River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,Katarina Bajc,Nengshi Zheng,2023-03-20 Urban riverbanks are attractive locations and highly prized recreational environments However they must meet the requirements of flood control open space design and ecology at the same time often a challenging task for the designer in very confined spaces The book the result of a study lasting several years subjects more than 60 exemplary projects to a comparative analysis The result is a systematic catalogue of strategies and innovative design tools The designer and planner thus obtains an overview of the range of design possibilities Eight new case studies from China Italy New Zealand the Netherlands Germany and Switzerland were selected and added for the enlarged edition of this reference work on riverbank design

River.Space.Design Martin Prominski,Antje Stokman,Daniel Stimberg,Hinnerk Voermanek,Susanne Zeller,2012-12-13 Urban riverbanks are attractive locations and highly prized recreational environments The designs of urban river landscapes must fulfill a broad range of requirements flood control open space design and ecology are as a rule the three dominant themes and they must often be reconciled within a very restricted space The river must be understood as a process governed by changing water levels shifting seasons erosion and sedimentation the river environment is not a static entity but constantly changing the design must be flexible and take this into account This book is the product of a multi year study that subjected more than fifty Western European projects to a comparative analysis The result is a systematic catalog of effective strategies and innovative design elements First designers and planners are given an overview of the broad and varied spectrum of design possibilities The book s process oriented approach is especially helpful where the focus is on long term sustainable measures The publication consists of two linked volumes that enable the reader to consult the systematic catalog and the case study section side by side The easy to navigate structure and an extensive glossary provide further guidance while the work s highly distinctive design makes it visually appealing as well and invites the reader to leaf through and explore it

River, Space, Design Martin Prominski,Antje Stokman,Daniel Stimberg,Susanne Zeller,2012 River Space Design is a systematically organised reference book for the design and planning of river spaces Urban river landscapes need to unite a broad range of requirements most notably flood control ecological considerations and open space design often within tight space constraints Taking a processoriented approach this book offers concrete guidelines for sustainable longterm interventions Arranged in two volumes this book contains a comparative analysis of more than 50 successful projects alongside rivers and streams in Europe and dissects them into their individual design elements The result is a catalogue of effective design strategies and tools that provides readers with an attractive and inspiring overview of the broad and varied spectrum of design possibilities for river spaces Each project is illustrated with photographe taken especially for the book and each principle is illustrated with explanatory diagrams The book s interdisciplinary structure is of interest to landscape architects architects engineers urban planners and hydrologists alike

River.Space.Design Martin Prominski, Antje Stokman, Daniel Stimberg, Hinnerk Voermanek, Susanne Zeller, Katarina Bajc, 2017-05-22 Urban riverbanks are attractive locations and highly prized recreational environments. However, they must meet the requirements of flood control, open space design, and ecology at the same time, often a challenging task for the designer. This book is the product of extensive research that identified some 60 best practice examples and subjected them to a comparative analysis. The result is a systematic catalog of effective strategies and innovative design tools that provides readers with an inspiring overview of the broad spectrum of design possibilities for river spaces. Each project is illustrated with photographs taken especially for the book, and each design strategy and tool is explained by diagrams. This revised edition introduces ten new case studies, chiefly from North America.

Cities & Rivers Iñaki Alday, 2024-04-29 A selection of architecture, landscape, and urbanism works from aldayjover architecture and landscape, an office based in Barcelona, Spain, and Virginia in the United States. A collection of projects designed from their local and territorial DNA that respond in new ways to the global socio-ecological crisis in which we have been engaged since the beginning of the 21st century. Featured works include public spaces, architecture, and urban studies that incorporate natural dynamics and that also emphasize recovering, in some cases, legal access among all citizens and equal access to the city and its opportunities. The works presented are particularly renowned given their leadership role in a new approach to the relationship between cities and rivers in which natural dynamics become part of the public space, eliminating the effect of catastrophe.

Research in Landscape Architecture Adri van den Brink, Diedrich Bruns, Hilde Tobi, Simon Bell, 2016-11-10 This book looks at research methods that are specific to and for landscape architecture and contributes to the further development of landscape architecture as an academic discipline in its own right.

Designing Knowledge Weidinger, Jürgen, 2015-11-18 Entwerfer und Entwurfsdisziplinen reklamieren gegenwärtig selbstbewusst, dass durch Entwerfen neues Wissen generiert wird. Prozessorientierte Abläufe im kreativen Schaffen wie Entwurfsergebnisse in Form realisierter Projekte erweitern ständig den eigenen Wissensstand und den Wissensstand anderer Disziplinen. Wie dieses neue Verhältnis von Wissensherzeugung und Entwerfen sich auf Praxis und Forschung auswirkt und in Modellen erfassbar ist, oder wie diese entwurfsbasierte Wissensmehrung für Landschaftsarchitekten systematischer ausgewertet werden kann, beleuchtet Herausgeber Jürgen Weidinger im dritten Band seiner Publikationsreihe. How a design-based knowledge creation offers increasing knowledge about designing about qualities of landscape architecture and the processes of learning how to design are a focus in third volume of a series published by Professor Jürgen Weidinger.

Routledge Handbook of Urban Landscape Research Kate Bishop, Linda Corkery, 2022-12-27 Landscape architecture is one of the key professions dedicated to making cities hospitable and healthy places to live, work, and play while respecting and enhancing the natural environments and landscapes we inhabit. This edited collection presents current writing about the pivotal roles that landscape architects play in addressing some of the most pressing problems facing the planet, its environments, and its populations through their research, analysis, and

speculative practice The book has assembled current writings on recent research structured around five major themes governance power and partnership infrastructure systems and performance environment resilience and climate change people place and design and culture heritage and identity As a collection the chapters demonstrate the diversity of themes and topics that are expanding the scholarly body of knowledge for the discipline and its relevance to the practice of landscape architecture The contributors to this book are academic researchers and practitioners from the discipline of landscape architecture The chapters draw on their research teaching and experience as well as analysis of project examples Fifty two contributors from the United States United Kingdom Sweden Denmark the Netherlands Nigeria Malaysia Spain Colombia Australia New Zealand and Canada discuss a diverse range of contemporary themes in urban landscape architecture Collectively the contributors demonstrate the breadth of experience shared concerns and distinct issues that challenge urban landscape architecture and cities in the 21st century

River Restoration Bertrand Morandi, Marylise Cottet, Hervé Piégay, 2021-09-27 River Restoration River restoration initiatives are now widespread across the world The research efforts undertaken to support them are increasingly interdisciplinary focusing on ecological chemical physical as well as societal issues River Restoration Political Social and Economic Perspectives provides a comprehensive overview of research in the field of river restoration in humanities and the social sciences It illustrates how in the last thirty years or so such approaches have evolved and strengthened within the restoration sciences The scientific community working in this domain has structured itself often regionally and circumstantially to critically assess and improve restoration policies and practices As a research field river restoration tackles three thematic axes Human river interactions especially perceptions and practices of rivers and how these interactions can be changed by restoration projects Political processes with a particular interest in governance and decision making and a specific emphasis on the question of public participation in restoration projects Evaluation of the social and economic benefits of river restoration River Restoration Political Social and Economic Perspectives encompasses these three topics and more to provide the reader with the most up to date and holistic view of this constantly evolving area The book will be of particular interest to human and social scientists biophysical scientists hydrologists geomorphologists ecologists environmental scientists public policy makers design or planning officers and anyone working in the field of river restoration
