Guide to the Social Services Family Welfare Association (Great Britain), 2001

Vision Changing Charity Ian Bruce, 2023-01-01 The late twentieth century saw charities grow from timid service deliverers into major providers with campaigning teeth What caused this How did they gain confidence and strength In this fascinating history examined through the eyes of RNIB from 1970 to 2010 Ian Bruce examines the internal drivers and the external socio political environment that

allowed and encouraged this explosion Bruce's experience of leading a charity at the forefront of this change and his participation in the wider charity sector for fifty years as both activist and academic gives him an unsurpassed understanding of what happened and why His first hand knowledge will speak to charity workers as well as academics covering themes such as the rise of beneficiary power against patronising providers the change from welfare to rights the shift from the medical to the social model of disability and the adoption of social welfare and business professionalisms such as Strategic Planning and Charity Marketing Today's charities have much to learn from the successes and mistakes of this dynamic period

Reading Groups, Libraries and Social Inclusion Eileen Hyder, 2016-04-01 Reading groups have grown rapidly in popularity and continue to be a significant cultural phenomenon Reading groups in public libraries linked to the learning and social inclusion agenda have expanded to include a wide range of groups within society including people with visual impairments VIPs This under researched area is the focus of this book Library based VIP reading groups are interesting on many levels Given that these groups predominantly use audio versions of the text rather than print this links to debates about the changing nature of reading in a multi modal age This book discusses whether contemporary society still defines reading as a visual activity or whether technological developments have led to a broadening of the definition of reading The author goes on to discuss how policy is translated into practice within the library context and whether the wide range of reading groups linked to libraries suggests that libraries understand and are taking the social inclusion agenda seriously She also explores how effectively libraries are using reading groups as a tool for delivering on the agenda for learning and how this sits within wider priorities for post compulsory education and lifelong learning Finally the book suggests ideas for future development for these groups outlining ways in which their potential could be maximised for the benefit of both the library and the reading group members The book will be of great interest to professional librarians as well as students and scholars of librarianship It will also be of interest to those working on the emerging field of reading groups in literary studies Those interested in the role of reading in education as well as disability scholars will also find the book useful
