Addison,2007-10-31 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major
areas of chemical research Written by experts in their specialist fields the series creates a unique service for the active
research chemist supplying regular critical in depth accounts of progress in particular areas of chemistry For over 80 years
the Royal Society of Chemistry and its predecessor the Chemical Society have been publishing reports charting developments
in chemistry which originally took the form of Annual Reports However by 1967 the whole spectrum of chemistry could no
longer be contained within one volume and the series Specialist Periodical Reports was born The Annual Reports themselves
still existed but were divided into two and subsequently three volumes covering Inorganic Organic and Physical Chemistry
For more general coverage of the highlights in chemistry they remain a must Since that time the SPR series has altered
according to the fluctuating degree of activity in various fields of chemistry Some titles have remained unchanged while
others have altered their emphasis along with their titles some have been combined under a new name whereas others have
had to be discontinued The current list of Specialist Periodical Reports can be seen on the inside flap of this volume
