Riding the Line Rex Taylor, 2012-10 Riding dirt bikes solo in remote areas is not conducive to safety The two most basic rules of safety are don't go out alone and always tell someone your itinerary But most of the time Rex Taylor rode alone That greatly increased the danger but simplified his logistics And it was just not possible to tell anyone his plans because he rarely had more than a general idea himself of his route or destination The risks were worth the thrill of riding a high powered machine across landscapes of unsurpassed natural beauty in total isolation He could rely on nothing but pluck and a lot of luck And his luck held to an unlikely degree A flat tire a broken bike part a broken body part or running out of gas could have meant disaster or death But he tried not to think about that too much *Dead Line* Chris Ewan, 2014-08-05 If you're a security expert what do you do if your fiancée suddenly goes missing presumably kidnapped If you're Daniel Trent a highly trained specialist in hostage negotiation the answer is simple You find out who took her and you make them talk But what if your chief suspect is taken as well How do you get him back quickly and alive so you can find out what really happened to your fiancée Set in Marseille Chris Ewan's *Dead Line* is a fast paced stand alone thriller that pitches the reader into Daniel's world as he tries desperately to secure the release of Jérôme Moreau from a ruthless gang in order to interrogate him on the whereabouts of his fiancée When things don't go according to plan Daniel must use all his skills and instincts to find the answers he's looking for but will he be in time Library of Congress Subject Headings Library of Congress. analyses of style tradition and society Offering a new overview of the anthropology of art this book begins where Gell left off Presenting wide ranging critiques of the limits of aesthetic interpretation the workings of objects in practice the relations between meaning and efficacy and the politics of postcolonial art its distinguished contributors both elaborate on and dissent from the controversies of Gells important text Subjects covered include music and the internet as well as ethnographic traditions and contemporary indigenous art Geographically its case studies range from India to Oceania to North America and Europe Library of Congress Subject Headings Library of Congress, Library of Congress.
