Providing full color coverage of best practices Head Neck and Orofacial Infections: An Interdisciplinary Approach 2nd Edition is an authoritative resource offering in depth guidelines to the diagnosis and management of pathology due to severe infections. Comprehensive evidence based coverage presents both cutting edge and time tested approaches to recognizing and handling infections. From well known academia and clinical educator James Hupp and accomplished surgeon Elie Ferneini with chapters authored by expert contributors this book is ideal for use as a clinical resource for a wide array of healthcare providers as well as to prepare for licensure examination and board certification. NEW Cutting edge content covers microbiologic nomenclature, anti microbial agents, understanding of viruses and anti viral drugs, the management of patients during pandemics and the team approach to managing infections of unknown origin or resistant to the usual treatment strategies. NEW Full color clinical images enhance understanding of key concepts in the text. NEW eBook version included with print purchase provides access to all the text figures and references with the ability to search, customize content, make notes and highlights and have content read aloud. UPDATED Appendices include illustrative case reports. Comprehensive easy to read coverage addresses the basic science, clinical diagnosis and holistic management of a broad range of head neck and orofacial infections with both time tested and cutting edge approaches to patient management. More than 500 photographs, radiographs and illustrations demonstrate pathologies, procedures and outcomes. World class authors and contributors share their expertise from the disciplines including infectious disease, head and neck surgery, oral and maxillofacial surgery, plastic surgery and otolaryngology as well as other disciplines involving severe infections of the head neck and orofacial regions. State of the art guidance reflects extensive experience with current techniques as well as technological advances in managing head neck and orofacial infections. A logical sectioned approach to the content includes three sections: I issues that are common to all infections of the head and neck region, II infections of specific parts of the region and III infections related to certain procedures/types of
