(Social and Political Life)(Chapter - 2) (Understanding Secularism)

(Class - 8)

Question 4:

Look up the annual calendar of holidays of your school. How many of them pertain to different religions? What does this indicate?

Answer 4:

Many holidays on a school's annual calendar pertain to different religions. This indicates that India is a secular country where religious freedom is granted to its citizens and all religions are equally respected.

Question 5:

Find out some examples of different views within the same religion.

Answer 5:

Many religions are further segregated into groups and communities that hold differing ideological opinions. One of these is the rift between the Shias and Sunnis - both followers of Islam. The division between Shias and Sunnis dates back to the death of the Prophet Muhammad and to the question of who was to take over the leadership after the Prophet. Sunni Muslims agree with the position taken by many of the Prophet's companions, that the new leader should be elected from among those capable for the job. This is what was done, and the Prophet Muhammad's close friend and advisor, Abu Bakr, became the first Caliph of the Islamic nation. The word "Sunni" in Arabic comes from a word meaning "one who follows the traditions of the Prophet."

On the other hand, some Muslims share the belief that leadership should have stayed within the Prophet's own family, among those specifically appointed by him, or among Imams appointed by God Himself.

The Shia Muslims believe that following the Prophet Muhammad's death, leadership should have passed directly to his cousin/son-in-law, Ali. Throughout history, Shia Muslims have not recognized the authority of elected Muslim leaders, choosing instead to follow a line of Imams which they believe have been appointed by the Prophet Muhammad or God Himself. The word "Shia" in Arabic means a group or supportive party of people. The commonly-known term is shortened from the historical "Shia-t-Ali," or "the Party of Ali." They are also known as followers of "Ahl-al-Bayt" or "People of the Household" (of the Prophet).

Question 6:

The Indian State both keeps away from religion as well as intervenes in religion. This idea can be quite confusing. Discuss this once again in class using examples from the chapter as well as those that you might have come up with.

Answer 6:

The Indian State keeps away from religion as well as intervenes in religion. This idea is quite confusing. It allows Sikh citizens to wear turbans and thereby be exempt from the use of helmets but it also disallows government schools from celebrating any particular religious festival. Annual holidays are given with regard to all religions and not any specific ones.

Question 7:

This poster alongside highlights the need for 'Peace'. It says, "Peace is a never-ending process....It cannot ignore our differences or overlook our common interests." Write in your own words what you think the above sentences are trying to convey? How does it relate to the need for religious tolerance?

Education for Social Citizenship W.O. Lee,Jeffrey T. Fouts,2005-03-01 This volume emerging from a cross national study of teachers perception of good citizenship addresses two fundamental questions What do teachers see as important in citizenship education How do these perceptions facilitate or hinder the preparation of good citizens While providing rich and useful data on the latest developments of citizenship education in various contexts this book also offers an all round review of concepts and arguments on the subject as well as insightful comparative analyses of the findings emerged from the case studies One encouraging conclusion drawn from these studies is that teachers across nations share similar goals and objectives that seem to have transcended cultural and political boundaries *GED®Test, REA's Total Solution for the GED® Test, 2nd Edition* Laurie Callihan,Lisa Mullins,Stacey A. Kiggins ,Stephen Reiss,2017-02-13 Comprehensive GED study guide that includes online diagnostic tests for each subject comprehensive review and two full length practice tests Adapted from back cover Teaching Civics Sibylle Reinhardt,2015-09-28 Around the world teaching civics is our most practical tool for learning about democracy In Germany the art of civics education is constantly being reconsidered and revised in part because of the country s history and the widespread awareness in German society of the dangers posed by education failing to do its job The aim of this book is to provide educators with a varied and theoretically robust repertoire of professional strategies that are grounded in the social sciences *Civics and Citizenship* Benilde García-Cabrero,Andrés Sandoval-Hernández,Ernesto Treviño-Villareal,Silvia Diazgranados Ferráns,María Guadalupe Pérez Martínez,2017-08-24 The book is organized around four sections The first section is an introduction to the problem of defining the scope and foundations of the development of moral personality and social engagement in particular the development of civic and ethical attitudes and prosocial behavior The second section presents a comparative analysis of education policies in Mexico Chile and Colombia in particular the way the curricula of civic and citizenship education is designed and implemented The section also describes and analyzes the way this subject is taught in the classrooms of the primary secondary and high school levels in the three countries The third section includes the results of research projects in Civics and Citizenship Education conducted with different theoretical and methodological models of analysis This last section includes some of the best practices of Civic Education that have been developed in Mexico Colombia and Chile Comparative Civic Culture Professor Laura A Reese,Professor Raymond A Rosenfeld,2013-04-28 The quest for a theoretical framework for understanding urban policy making has been a recurring focus of research into local governments Civic culture is a means for understanding how municipal policy makers weigh the interests of different groups govern the local community frame local goals engage in decision making and ultimately select and implement public policies While it seems that culture matters in local policy making how to measure culture in a valid and replicable fashion presents a significant challenge which the authors address

in this book They present their findings of a large multi city research project to explore the nature of civic culture in cities in the US and Canada The focus of their analysis is on three overarching systems of community power system the community value system and the community decision making system The authors address a number of questions around the nature of civic culture and the relationships between the three systemic elements of civic culture to refine and apply a more sophisticated theory of urban policy making

Renewing Democracy in Young America Daniel Hart,James Youniss,2018 With a government plagued by systemic ills and deep ideological divides democracy as we know it is in jeopardy Yet ironically voter apathy remains prevalent and evidence suggests standard civic education has done little to instill a sense of civic duty in the American public While some are waiting for change to come from within trying to influence already polarized voters or counting down the days until the next election leading child and adolescent development experts Daniel Hart and James Youniss are looking to another solution America s youth In *Renewing Democracy in Young America* Hart and Youniss examine the widening generation gap the concentration of wealth in pockets of the US and the polarized political climate and they arrive at a compelling solution to some of the most hotly contested issues of our time The future of democracy depends on the American people seeing citizenship as a long term psychological identity and thus it is critical that youth have the opportunity to act as citizens during the time of their identity formation Proposing that 16 and 17 year olds be able to vote in municipal elections and suggesting that schools create science based community oriented environmental engagement programs the authors expound that by engaging youth through direct citizen participatory experiences we can successfully create active and committed citizens Political scientists media commentators and citizens alike agree that democratic processes are broken across the nation but we cannot stop at simply showing that our political system is dysfunctional Refreshingly lucid and unabashedly hopeful *Renewing Democracy in Young America* is an impeccably timed call to action
