While there is a growing trend toward incorporating the Chinese dream into school education and higher education, there has been no scholarly discussion to date. The combination of cultural politics transformed authority relations and officially approved songs can provide us with an understanding of the official content on the Chinese dream that is conveyed in today's Chinese society and how these factors have influenced the renewal of values-based education and practices in school music education in China.

**Globalisation and National Identity in History Textbooks** Joseph Zajda, 2017-07-06 Globalisation and National Identity in History Textbooks. The Russian Federation, the 16th book in the 24 volume book series Globalisation: Comparative Education and Policy Research, discusses trends in dominant discourses of identity politics and nation building in school history textbooks in the Russian Federation. The book addresses one of the most profound examples of the re-writing of history following a geopolitical change. Various book chapters examine debates pertaining to national identity, patriotism, and the nation building process. The book discusses the way in which a new sense of patriotism and nationalism is documented in prescribed Russian history textbooks and in the Russian media debate on history textbooks. It explores the ambivalent and problematic relationship between the state, globalisation, and the construction of cultural identity in prescribed school history textbooks. By focusing on ideology, identity politics, and nation building, the book examines history teachers' responses to the content of history textbooks and how teachers depict key moments in modern Russian history. This book is an essential sourcebook of ideas for researchers, practitioners, and policymakers in the fields of globalisation and history education. It provides timely information on history teachers' attitudes towards historical knowledge and historical understanding in prescribed Russian history textbooks.

*In the Best Interest of Students* Kelly Gallagher, 2023-10-10 In his new book *In the Best Interest of Students: Staying True to What Works in the ELA Classroom*, teacher and author Kelly Gallagher notes that there are real strengths in the Common Core standards and there are significant weaknesses as well. He takes the long view, reminding us that standards come and go, but good teaching remains grounded in proven practices that sharpen students' literacy skills. Instead of blindly adhering to the latest standards movement, Gallagher suggests increasing the amount of reading and writing students are doing while giving students more choice around those activities. Balancing rigorous, high-quality literature and non-fiction works with student-selected titles. Encouraging readers to deepen their comprehension by moving beyond the four corners of the text. Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres. Using modeling to enrich students' writing skills in the prewriting, drafting, and revision stages. Resisting the de-emphasis of narrative and imaginative reading and writing. Amid the frenzy of trying to teach to a new set of standards, Kelly Gallagher is a strong voice of reason, reminding us that instruction should be anchored around one guiding question:

What is in the best interest of our students
