Socially Awkward The Awkward Series 1:

The Mighty Odds (The Odds Series #1) Amy Ignatow, 2016-09-13 From the renowned author/illustrator of the Popularity Papers series Amy Ignatow comes the first installment in a new series about a diverse crew of middle school kids who develop very limited superhero powers after a strange accident and manage to become unlikely friends on the adventure of a lifetime. When a sweet nerd, an artsy cartoonist, a social outcast, and the most popular girl in school are involved in a mysterious bus accident, this seemingly random group of kids starts to notice some very strange abilities they did not have before. Artsy Martina can change her eye color. Nerdy Nick can teleport four inches to the left. Outcast Farshad develops super strength but only in his thumbs. And Cookie, the It Girl of school's most popular clique, has suddenly developed the ability to read minds when those minds are thinking about directions. They are oddly mighty, especially together. This group, who would never hang out under normal circumstances, must now combine all of their strengths to figure out what happened during the bus accident. With alternating narratives from each of the heroes, including illustrated pieces from Martina, and featuring bold female superheroes and a multicultural cast, *The Mighty Odds* is *The Breakfast Club* for a new generation. [The Ashgate Research Companion to Paranormal Cultures](#) Olu Jenzen, Sally R. Munt, 2016-03-23 Despite the much vaunted end of religion and the growth of secularism, people are engaging like never before in their own spiritualities of life. Across the West, paranormal belief is on the rise. *The Ashgate Research Companion to Paranormal Cultures* brings together the work of international scholars across the social sciences and humanities to question how and why people are seeking meaning in the realm of the paranormal, a heretofore subjugated knowledge. With contributions from the UK and other European countries, the USA, Australia, and Canada, this ground-breaking book attends to the paranormal as a position from which to critique dominant forms of knowledge production and spirituality. A rich exploration of everyday life practices, textual engagements, and discourses relating to the paranormal, as well as the mediation technology and art of paranormal activity, this book explores themes such as subcultures and mainstreaming, as well as epistemological, methodological, and phenomenological questions and the role of the paranormal in social change. *The Ashgate Research Companion to Paranormal Cultures* constitutes an essential resource for those interested in the academic study of cultural engagements with paranormality; it will appeal to scholars of cultural and media studies, popular culture, sociology, cultural geography, literature, film, and music. **A Sociology of Awkwardness** Pauwke Berkers, Yosha Wijngaarden, 2025-04-21 A *Sociology of Awkwardness* shows how awkward feelings are the outcome of social interactions going wrong. Combining insights from cultural sociology and the

sociologies of interactions and emotions this book develops the first comprehensive sociology of awkwardness It provides an understanding of how people define express and experience awkwardness while locating its causes not within individuals but within social interactions The book also offers a unique perspective by examining how both time and space contribute to the experience of awkwardness Additionally it delves into the various ways people deal with awkward interactions A Sociology of Awkwardness introduces a novel theory and typology of awkwardness drawing from rich empirical data of everyday encounters work dating and self help This book will appeal to scholars across the social sciences particularly those interested in culture social interactions and emotions It will also attract readers seeking to understand awkwardness as a cultural phenomenon though not as a self help guide

Laughter and Awkwardness in Late Medieval England David Watt,2023-08-24 We live according to Adam Kotsko in an awkward age While this condition may present some challenges it may also help us to be more attuned to awkwardness in other ages This book pairs medieval texts with twenty first century films or television programmes to explore what the resonance between them can tell us about living together in an awkward age In this nuanced and engaging study David Watt focuses especially but not exclusively on the 15th century which seems to intervene awkwardly in the literary trajectory between Chaucer and the Renaissance This book s hypothesis is that the social discomfort depicted and engendered by writers as diverse as Thomas Hoccleve Margery Kempe and Sir Thomas Malory is a feature rather than a flaw Laughter and Awkwardness in Late Medieval England explains that these authors have a great deal in common with other fifteenth century authors who generated embodied experiences of social discomfort in a range of genres by adopting and adapting literary techniques used by their predecessors and successors in slightly different ways Like the twenty first century texts with which they are paired the late medieval texts that feature in this book use the relationship between laughter and awkwardness to ask what it means to live with each other and how we can learn to live with ourselves

Vagueness, and Scale Structure Elena Castroviejo, Louise McNally, Galit Weidman Sassoon, 2018-06-20 This volume is the first to focus specifically on experimental studies of the semantics of gradability scale structure and vagueness. It presents support for and challenges to current formal analyses of these phenomena in view of experimentally collected data highlighting the ways semantic and pragmatic theory can benefit from experimental methodologies. The papers in the volume contribute to an explicit and detailed account of the use representation and online processing of gradable and vague expressions using various kinds of controlled speaker judgment tasks, eye tracking and ERP. The aim is to strengthen the foundations of experimental semantics and promote interaction between linguists, psycholinguists, psychologists and philosophers who are interested in the semantics of natural language. Using data representing different languages and a variety of nominal and adjectival constructions including degree modification and comparatives, the contributions address scale based classifications of gradable predicates such as the absolute vs relative distinction, the nature of the standards for applicability of gradable expressions and the ways in which standards are determined, the nature of dimensions and multidimensionality in the meaning of scalar expressions and the role of embodiment, subjectivity and sociolinguistic considerations in the use and understanding of gradable expressions.
