Sociolinguistics A Very Short Introduction:

Sociolinguistics: A Very Short Introduction John Edwards, 2013-07-11 Sociolinguistics deals with the social life of language language in its sociocultural context It is a branch of linguistics that looks less at the shape or sound of words morphology or phonology and more at how our words and sentences are influenced by the society around us for instance how the accent or the dialect we use has been shaped by where we come from or which social class we belong to In this Very Short Introduction John Edwards offers the most up to date brief overview available of sociolinguistics with side trips into the sociology of language and psycholinguistics He considers such topics as the different social evaluations of languages and dialects the loaded significance of names and the importance of politically driven language planning and policy The relationship between language and gender sexist language the language of poverty and the intertwining of language and religion are also dealt with here Edwards stresses that while linguists see all dialects as equally valid in the wider world powerful attitudes have always placed language varieties in social hierarchies The author also looks at language more broadly examining the ways in which languages rise or fall the attempts to revive flagging or endangered varieties the reasons why some languages came to dominate others and the special dynamics that affect contact between big and small languages In both its role as our most powerful tool of communication and as the most immediate symbolic marker of human affiliation language is pre eminently a social phenomenon This compact volume offers an invaluable introduction to this vital aspect of language About the Series Oxford's Very Short Introductions series offers concise and original introductions to a wide range of subjects from Islam to Sociology Politics to Classics Literary Theory to History and Archaeology to the Bible Not simply a textbook of definitions each volume in this series provides trenchant and provocative yet always balanced and complete discussions of the central issues in a given discipline or field Every Very Short Introduction gives a readable evolution of the subject in question demonstrating how the subject has developed and how it has influenced society Eventually the series will encompass every major academic discipline offering all students an accessible and abundant reference library Whatever the area of study that one deems important or appealing whatever the topic that fascinates the general reader the Very Short Introductions series has a handy and affordable guide that will likely prove indispensable

Sociolinguistics: A Very Short Introduction John Edwards, 2013-07-25 In this Very Short Introduction John Edwards offers the most up to date brief overview available of sociolinguistics with side trips into the sociology of language and psycholinguistics **The Very Short Introductions Blog Book** Oxford University Press, 2014-09-01 In this free Very Short Introductions Blog Book we've gathered 30 of our VSI authors very best blog posts on topics including history politics science and more We hope you enjoy this glimpse into the passion insight and great writing that characterizes these authors and the Very Short Introductions series **The Study of Language** George Yule, 2017 Easy to follow simple to understand broad yet concise this fundamental introduction to the study of language now includes new study questions and tasks

The Cambridge Handbook of Language Contact Salikoko Mufwene, Anna Maria Escobar, 2022-06-30 Language contact the linguistic and social outcomes of two or more languages coming into contact with each other starts with the emergence of multilingual populations Multilingualism involving plurilingualism can have various consequences beyond borrowing interference and code mixing and switching including the emergence of lingua francas and new language varieties as well as language endangerment and loss Bringing together contributions from an international team of scholars this Handbook the second in a two volume set engages the reader with the manifold aspects of multilingualism and provides state of the art research on the impact of population structure on language contact It begins with an introduction that presents the history of the scholarship on the subject matter The chapters then cover various processes and theoretical issues associated with multilingualism embedded in specific population structures worldwide as well as their outcomes It is essential reading for anybody interested in how people behave linguistically in multilingual or multilectal settings **Contemporary**

Language Motivation Theory Ali H. Al-Hoorie, Peter D. MacIntyre, 2019-11-18 This book brings together contributions from the leaders of the language learning motivation field The varied chapters demonstrate how Gardner s work remains integral to a diverse range of contemporary theoretical issues underlying the psychology of language even today 60 years after the publication of Gardner and Lambert s seminal 1959 paper The chapters cover a wide selection of topics related to applied linguistics second language acquisition social psychology sociology methodology and historical issues The book advances thinking on cutting edge topics in these diverse areas providing a wealth of information for both students and established scholars that show the continuing and future importance of Gardner and Lambert s ideas **Identity and Dialect**

Performance Reem Bassiouney, 2017-10-24 Identity and Dialect Performance discusses the relationship between identity and dialects It starts from the assumption that the use of dialect is not just a product of social and demographic factors but can also be an intentional performance of identity Dialect performance is related to identity construction and in a highly globalised world the linguistic repertoire has increased rapidly thereby changing our conventional assumptions about dialects and their usage The key outstanding feature of this particular book is that it spans an extensive range of communities and dialects Italy Hong Kong Morocco Egypt Syria Japan Germany The Sudan The Netherlands Nigeria Spain

US UK French Guiana Colombia and Libya **The Languageing of Higher Education in the Global South** Sinfree Makoni, Cristine G. Severo, Ashraf Abdelhay, Anna Kaiper-Marquez, 2022-01-06 By foregrounding language practices in educational settings this timely volume offers a postcolonial critique of the languaging of higher education and considers how Southern epistemologies can be used to further the decolonization of post secondary education in the Global South Offering a range of contributions from diverse and minoritized scholars based in countries including South Africa Rwanda Sudan Qatar Turkey Portugal Sweden India and Brazil The Languageing of Higher Education in the Global South problematizes the use of language in various areas of higher education Chapters demonstrate both subtle and explicit ways in which the language of pedagogy scholarship policy and participation endorse and privilege Western constructs and knowledge production and utilize Southern theories and epistemologies to offer an alternative way forward practice and research which applies and promotes Southern epistemologies and local knowledges The volume confronts issues including integrationism epistemic solidarity language policy and ideology multilingualism and the increasing use of technology in institutions of higher education This innovative book will be of interest to researchers scholars and postgraduate students in the fields of higher education applied linguistics and multicultural education Those with an interest in the decolonization of education and language will find the book of particular use **Creole Studies - Phylogenetic Approaches** Peter Bakker, Finn Borchsenius, Carsten Levisen, Eeva M. Sippola, 2017-05-31 This book launches a new approach to creole studies founded on phylogenetic network analysis Phylogenetic approaches offer new visualisation techniques and insights into the relationships between creoles and non creoles creoles and other contact varieties and between creoles and lexifier languages With evidence from creole languages in Africa Asia the Americas and the Pacific the book provides new perspectives on creole typology cross creole comparisons and creole semantics The book offers an introduction for newcomers to the fields of creole studies and phylogenetic analysis Using these methods to analyse a variety of linguistic features both structural and semantic the book then turns to explore old and new questions and problems in creole studies Original case studies explore the differences and similarities between creoles and propose solutions to the problems of how to classify creoles and how they formed and developed The book provides a fascinating glimpse into the unity and heterogeneity of creoles and the areal influences on their development It also provides metalinguistic discussions of the creole concept from different perspectives Finally the book reflects critically on the findings and methods and sets new agendas for future studies Creole Studies has been written for a broad readership of scholars and students in the fields of contact linguistics biolinguistics sociolinguistics language typology and semantics **Language, Identity, and Power in Modern India** Riho Isaka, 2021-10-28 This book is a historical study of modern Gujarat India addressing crucial questions of language identity and power It examines the debates over language among the elite of this region during a period of significant social and political change in the late nineteenth and early twentieth centuries Language debates closely reflect power relations among different sections of

society such as those delineated by nation ethnicity region religion caste class and gender They are intimately linked with the process in which individuals and groups of people try to define and project themselves in response to changing political economic and social environments Based on rich historical sources including official records periodicals literary texts memoirs and private papers this book vividly shows the impact that colonialism nationalism and the process of nation building had on the ideas of language among different groups as well as how various ideas of language competed and negotiated with each other Language Identity and Power in Modern India Gujarat c 1850 1960 will be of particular interest to students and scholars working on South Asian history and to those interested in issues of language society and politics in different parts of the modern world

Research Methods in Language Attitudes Ruth Kircher, Lena Zipp, 2022-07-07 An interdisciplinary guide to traditional as well as cutting edge methods for the study of language attitudes *The Routledge Handbook of Language Policy and Planning* Michele Gazzola, François Grin, Linda Cardinal, Kathleen Heugh, 2023-09-28 The Routledge Handbook of Language Policy and Planning is a comprehensive and authoritative survey including original contributions from leading senior scholars and rising stars to provide a basis for future research in language policy and planning in international national regional and local contexts The Handbook approaches language policy as public policy that can be studied through the policy cycle framework It offers a systematic and research informed view of actual processes and methods of design implementation and evaluation With a substantial introduction 38 chapters and an extensive bibliography this Handbook is an indispensable resource for all decision makers students and researchers of language policy and planning within linguistics and cognate disciplines such as public policy economics political science sociology and education
