Macionis, 2009-09-29 The Simpsons, Satire, and American Culture M. Henry, 2012-09-25 How is The Simpsons a satirical artwork engaged with important social political and cultural issues In time for the twenty fifth anniversary Henry offers the first comprehensive understanding of the show as a satire and explores the ways in which The Simpsons participates in the so called culture war debates taking place in American society Redeeming Sociology Vern S. Poythress, 2011-05-04 Interpersonal relationships are possible for humans because we are created in the image of a Trinitarian God But if the Trinity is our model for relationships why is the human condition rife with pain and evil How are we to think correctly about fallen human relationships and our models for understanding them Redeeming Sociology advocates a biblically informed model for human relationships relationships rooted in the Trinitarian character of God his governance of the world and his redemption accomplished in Christ Poythress examines how the breaking of relationships through sin leads to strife murder and oppression among human beings and sets cultures against one another And he shows how these broken relationships are restored through the outworking of redemption in Christ Though typical sociological models for interpersonal relationships may offer some valuable insights they are handicapped by a fundamental misunderstanding of humanity The biblical model that Poythress presents correctly diagnoses the problem of human relationships so it can likewise prescribe a biblical solution that infuses new meaning and power into how we relate to others made in the image of God **Society: The Basics, Global Edition** John J. desire to rid itself of Alaska Was the acquisition of the Philippines a zealous profit seeking effort aiming for the China market or the fortuitous consequences of a move against Spain during the Spanish American War Miseducating Americans debunks many commonly accepted explanations of historical facts It contends that many accounts are oversimplifications and some are one sided depictions of virtue Hamilton traces the sources of these misconstructions which mostly come from history textbooks written by authors aiming for popular audiences He then offers explanations as to how and why the inaccuracies have been repeated and passed on Recognizing Race and Ethnicity, 2018-05-15 This book approaches the study of race ethnicity through a sociological lens It focuses on a few social policies that are perceived as race related such as affirmative action to an understanding of the historical racialization of the US welfare state overall **Satisfying**
