Soul, World, and Idea Daniel Sherman, 2013-10-03 In its examination of two of Plato's key works Soul World and Idea An Interpretation of Plato's Republic and Phaedo reveals the key role that that images and our capacity for image making play in the relationship among soul world and idea This book begins and ends with a reading of the Republic Daniel Sherman turns midway to the Phaedo to further analyze the nature of the soul and its relation to the nature of the Ideas then returns to apply the conclusions to the rest of the Republic Sherman's focus is on the ontological and epistemological argument including attention to the dramatic detail He argues that the ontology of the Ideas in the Republic and the Phaedo is inseparable from the ontology of human being that is from the structure and life of the soul On this interpretation the Ideas are seen as indeed objective but as in a sense also a product of a permanent dialectical relationship The Ideas though something more than concepts do not have any real independent existence outside of this human dialectical triad of world soul and Idea The stability of the Ideas need not be grounded in a static otherworldliness and the condition of meaning is not temporally prior to human existence in general The result is a new interpretation concerning the realm of the Ideas the immortality of the soul and the lived in world of their interaction in the production of interpretive images Sherman argues that the platonic soul is immortal and the Ideas eternal wholly and solely in human dialogical activity the rest is muthologia and that the world of our experience is a product of an ongoing act of interpretation or dianoetic dialogue This reinterpretation the platonic Ideas will be especially interesting to students and scholars of

classics ancient philosophy and continental philosophy *In the Academy of Plato* D. L. Bradley, 2015-02-08 A discussion of Plato's methodology as he articulated his views on that subject in his Seventh Letter illustrated by an examination of their use to explore and employ some aspects of the Pythagorean and Athenian Schools of mathematics and number theory in his Symposium Meno Republic and Phaedo *The Broadview Anthology of Social and Political Thought: Essential Readings* Andrew Bailey, Samantha Brennan, Will Kymlicka, Jacob T. Levy, Alex Sager, Clark Wolf, 2012-02-17 This volume features a careful selection of major works in political and social philosophy from ancient times through to the present Every reading has been painstakingly annotated and each figure is given a substantial introduction highlighting his or her major contribution to the tradition The anthology offers both depth and breadth in its selection of material by central figures while also representing other currents of political thought Thirty two authors are represented including fourteen from the 20th century The editors have made every effort to include translations that are both readable and reliable In order to ensure the highest standards of accuracy and accessibility the editors have consulted dozens of leading academics during the course of the volume's development many of whom have contributed introductory material as well as advice The result is an anthology with unparalleled pedagogical benefits The Broadview Anthology of Social and Political Thought sets the new standard for social and political philosophy instruction *Irony in the Work of Philosophy* Claire Colebrook, 2002-01-01 In an era that proclaims itself postironic the question and problem of irony are of more interest than ever In this compelling inquiry Claire Colebrook first takes up all the major figures in post Cartesian philosophy on the subject of irony Spinoza Kant Hegel and Nietzsche She similarly examines the modern thinkers in the Anglo Saxon tradition Rorty Searle and de Man She then engages in an analysis of the Continental canon and the ironic dimension that marks contemporary philosophy Beyond the question of irony Colebrook treats the presence of irony in the history of philosophy and those points of overlap between nineteenth and twentieth century literature and philosophy Ultimately she extends what has belonged primarily to the domain of literature into a world of concepts *Plato's Republic* Richard Kraut, 2000-01-01 Designed for courses in the history of philosophy social and political theory government and Plato specifically Plato's Republic Critical Essays will enrich students understanding of this profoundly influential work The comprehensive collection covers Plato's social and political thought his metaphysics and epistemology his ethical theory and his attitude towards women The essays chosen for their clarity and ability to stimulate student discussion are related to one another in ways that will help students see the connections among the various strands of Plato's thought The book includes an index of passages to guide students through parts of the Republic that they find challenging **Athenaeum and Literary Chronicle**, 1865 Plato's Socrates on Socrates Anne-Marie Schultz, 2020-03-19 In Plato's Socrates on Socrates Socratic Self Disclosure and the Public Practice of Philosophy Anne Marie Schultz analyzes the philosophical and political implications of Plato's presentation of Socrates self disclosive speech in four dialogues Theaetetus Symposium Apology and Phaedo Schultz argues that these moments of

Socratic self disclosure show that Plato's presentation of Socrates the narrator is much more pervasive than the secondary literature typically acknowledges. Despite the pervasive appearance of a Socrates who describes his own experience throughout the dialogues, Socratic autobiographical self disclosure has received surprisingly little scholarly attention. Plato's use of narrative, particularly his trope of Socrates the narrator, is often subsumed into discussions of the dramatic nature of the dialogues, more generally rather than studied in its own right. Schultz shows how these carefully crafted narrative remarks add to the richness and profundity of the Platonic texts on multiple levels. To illustrate how these embedded Socratic narratives contribute to the portrait of Socrates as a public philosopher in Plato's dialogues, the author also examines Socratic self-disclosive practices in the works of bell hooks, Kathy Khang, and Ta-Nehisi Coates and even practices the art of Socratic self disclosure herself.

[The Broadview Anthology of Social and Political Thought](#), [Middle Range Theory for Nursing](#) Mary Jane Smith, Patricia R. Liehr, Roger D. Carpenter, 2023-01-25 Three time recipient of the AJN Book of the Year Award. The completely revised fifth edition of this authoritative text encompasses the most current middle range theories for graduate nursing students and researchers. User friendly and consistently organized, it helps readers to understand the connection of research to larger conceptual models in nursing. The fifth edition presents three new theories, a revised chapter on concept building, two published examples demonstrating the concept building process, and a new section on the application of middle range theory that addresses its use for practice and education. Additional new features include the fresh perspectives of a third editor, a two-color design to enhance readability, and discussion questions concluding each chapter. The text describes sixteen middle range theories and elaborates on disciplinary perspectives, providing an organizing framework and evaluating the theory. Each theory is consistently organized by purpose, historical development, primary concepts, the relationships among concepts, and its use in nursing practice and research. Understanding of concepts is enhanced by the book's use of the ladder of abstraction for each theory to explain its relationship to philosophical, conceptual, and empirical theory dimensions. New to the Fifth Edition: Includes three new theories: Inner Strength, Unitary Caring, and Nature Immersion, for a total of 16 theories. A completely new section on application of theory to practice. New chapter on application of middle range theory to education. Extensively revised chapter on building concepts for research. Two-color design to enhance readability. Modernist Anthropology Marc Manganaro, 2014-07-14 Recent insights into the nature of representation and power relations have signaled an important shift in perspective on anthropology from a fieldwork-based science of culture to an interpretive activity bound to the discursive and ideological process called text-making This collection of essays reflects the ongoing cross-fertilization between literary criticism and anthropology Focusing on texts written or influenced by anthropologists between 1900 and 1945 the work relates current perspectives on anthropology's discursive nature to the literary period known as Modernism The essays each demonstrating anthropology's profound influence on this important cultural movement are organized according to discourse type from the comparativist text of Frazer to the ethnographies of Boas Benedict Mead and Hurston and on to the surrealist experiments of the *College de Sociologie* Meanwhile the book's orientation shifts from essays that approach anthropology from the vantage points of literariness and textual power to those that contemplate what bearing the junction of cultural theory and anthropology can have upon present and future social institutions In addition to the editor contributors include Vincent Crapanzano Deborah Gordon Richard Handler Arnold Krupat Francesco Loriggio Michele Richman Marty Roth Marilyn Strathern Robert Sullivan John B. Vickery and Steven Webster Originally published in 1990 The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton

The Ancient Greek Hero in 24 Hours Gregory Nagy,2013-07-15 The ancient Greeks concept of the hero was very different from what we understand by the term today Gregory Nagy argues and it is only through analyzing their historical contexts that we can truly understand Achilles Odysseus Oedipus and Herakles In Greek tradition a hero was a human male or female of the remote past who was endowed with superhuman abilities by virtue of being descended from an immortal god Despite their mortality heroes like the gods were objects of cult worship Nagy examines this distinctively religious notion of the hero in its many dimensions in texts spanning the eighth to fourth centuries bce the Homeric Iliad and Odyssey tragedies of Aeschylus Sophocles and Euripides songs of Sappho and Pindar and dialogues of Plato All works are presented in English translation with attention to the subtleties of the original Greek and are often further illuminated by illustrations taken from Athenian vase paintings The fifth century bce historian Herodotus said that to read Homer is to be a civilized person In twenty four installments based on the Harvard University course Nagy has taught and refined since the late 1970s The Ancient Greek Hero in 24 Hours offers an exploration of civilization s roots in the Homeric epics and other Classical literature a lineage that continues to challenge and inspire us today
