Washington, 2022-11-08 What does a workplace utopia look like to you This is the guestion Dr Ella F Washington asks company leaders and often she hears about an ideal vision of an organization that values diversity and inclusion and wants employees to bring their whole selves to work But how can you get there Organizations have largely missed the mark when it comes to creating environments where all employees thrive in an equal and equitable way because they treat diversity equity and inclusion DEI as a program that gets done rather than the necessary and difficult journey it is A truly inclusive workplace requires invention and reinvention mistakes and humility adaptation to a changing world constant reflection and sometimes significant sacrifice. The road to an inclusive workplace is a difficult one but you can traverse it and there s help along the way Start here with stories of companies making the necessary journey including Slack PwC Best Buy Denny s and many others Hear from company leaders about their successes and failures the times they were on the vanguard and the moments they realized they had much more work to do These are profiles in perseverance from people who are keen enough to recognize the need for inclusive workplaces and humble enough to know they re not there yet Along the way Washington provides a framework for thinking about where these companies are on their journeys and where you and your company may be too Progress is hard won on the necessary journey to becoming an inclusive organization but it must be won John Lewis said it best You see something you want to get done you cannot give up and you cannot give in The Leaders You Need Karen Brown, 2024-10-15 An innovative field tested framework for leaders and managers on how to create more diverse leadership and management teams We need the strength that comes from diversity more now than we ever have in our collective memory Without leadership teams that reflect the full range of humanity for profit and nonprofit organizations alike will find it more difficult to confront today s challenges and are unlikely to thrive in the long term But no two organizations have the same need for greater diversity in

leadership nor the same path to achieving it In The Leaders You Need Karen Brown offers an innovative field tested ABCD Framework that will help readers to discover the hidden leadership and management talent in their organizations and how to harness it Karen Brown shares the approach she has used to guide organizations from small nonprofits to the Global 500 on their journey to greater diversity in leadership and management Her framework consists of four pillars How to align diversity equity and inclusion efforts with business priorities How to build strong partnerships with stakeholders How to cultivate a culture of role models How to define objectives and outcomes with data Readers will learn how to use the framework to identify and dismantle the barriers to greater leadership and management diversity in their organizations What's more they will get practical advice on how to become inclusive leaders who create opportunities for everyone on their teams to learn grow and fulfill their potential Power, Participation, and Private Regulatory Initiatives Daniel Brinks, Julia Dehm, Karen Engle, Kate Taylor, 2021-07-30 From unsafe working conditions in garment manufacturing to the failure to consult indigenous communities with regard to extractive industries that affect them human rights violations remain a pervasive aspect of the global economy Advocates have long called upon states as the primary duty bearers and enforcers of human rights to hold corporations directly accountable for violations committed throughout the supply chain More recently many business and human rights advocates have considered the development and enforcement of private regulatory initiatives PRIs to certify that actors along the supply chain conform to certain codes of conduct Many advocates see these PRIs as holding the potential to create better outcomes whether for workers affected communities or the environment within a global economy structured by supply chain capitalism This volume brings together academics and practitioners from a number of regions throughout the world to engage in theoretical analysis case study exploration and reflection on a variety of PRIs Theorizing outward from the work of practitioners and activists on the ground the book brings essential but often overlooked questions to the scholarly debates on business human rights and global governance Ultimately the contributions coalesce around one basic claim that the inequalities and disparities of power and wealth that are a key characteristic of the contemporary global economy can also mark the origins and operation of PRIs and do so to varying degrees The collection highlights the need for discussions about labor environmental and other human rights accountability to be situated within a broader analysis of the political economy of contemporary supply chain capitalism It seeks to enrich discussions of PRIs by bringing into the conversation concerns about distributive justice and political economy **Design Thinking for Food** Well-Being Wided Batat, 2021-01-06 How can we design innovative food experiences that enhance food pleasure and consumer well being Through a wide variety of empirical methodological and theoretical contributions which examine the art of designing innovative food experiences this edited book explores the relationship between design thinking food experience and food well being While many aspects of food innovation are focused on products features in this book design thinking follows an experiential perspective to create a new food innovation design logic that integrates two aspects consumer food
