Twenge Myers, 2013 *The Social Psychology of Living Well* Joseph P. Forgas, Roy F. Baumeister, 2018-01-29 How to live well and the search for meaning have long been of intense concern to humans perhaps because Homo sapiens is the only species aware of its own mortality In the last few decades empirical psychology made a major contribution to this quest This book surveys groundbreaking work by leading international researchers demonstrating that social psychology is the core discipline for understanding well being and the search for meaning Basic conceptual and theoretical principles are discussed drawing on philosophy evolutionary theory and psychology followed by a review of the role of purposeful motivated activity and self control in achieving life satisfaction The role of emotional and cognitive processes and the influence of social interpersonal and cultural factors in promoting a happy and meaningful life are discussed The book will be of interest to students practitioners and researchers in the behavioral and social sciences as well as to laypersons for whom improving the quality of human life and understanding the principles of well being are of interest **Politics of Social Psychology** Jarret T. Crawford, Lee Jussim, 2017-07-28 Social scientists have long known that political beliefs bias the way they think about understand and interpret the world around them In this volume scholars from social psychology and related fields explore the ways in which social scientists themselves have allowed their own political biases to influence their research These biases may influence the development of research hypotheses the design of studies and methods and materials chosen to test hypotheses decisions to publish or not publish results based on their consistency with one s prior political beliefs and how results are described and dissemination to the popular press The fact that these processes occur within academic disciplines such as social psychology that strongly skew to the political left compounds the problem Contributors to this volume not only identify and document the ways that social psychologists political beliefs can and have influenced research but also offer solutions towards a more depoliticized social psychology that can become a model for discourse across the social sciences

Research Integrity Lee J. Jussim, Jon A. Krosnick, Sean T. Stevens, 2022 This book offers a behavioral science perspective on how scientific practice becomes compromised and provides recommendations for improvement Broadening the discussion of research integrity beyond replication publication biases statistics and methods this book addresses the full complexity of the issue and serves academics and policy makers who are concerned with the reliability and validity of scientific findings across the social sciences

China and Her Neighbours Michael Tai, 2019-09-15 For centuries China was confident in its role as the Middle Kingdom the undisputed cultural economic and political powerhouse of Asia Today with China once again a leading player on the world stage countries across the continent are facing an uncertain future Does China's rise threaten its neighbours And what ultimately is its end goal Nowhere are these questions more pressing than in the Pacific where China's maritime neighbours find themselves directly in the path of the country's expanding territorial claims In this rich historical exploration Michael Tai finds answers to these and other questions through an in depth exploration of China's past Spanning thousands of years of Chinese and Asian history *China and Her Neighbours* looks at China's evolving relations with Japan Vietnam the Philippines and Malaysia While the disputes in the Pacific have attracted widespread attention very few investigations have considered the wider historical context of these tensions

The Roots of Goodness and Resistance to Evil Ervin Staub, 2015 He explores the range of experiences that lead to active bystandership including socialization by parents teachers and peers in childhood education experiential learning and public education through media He examines what personal characteristics or dispositions result from such experiences which in turn lead to caring and helping Staub also considers how circumstances influence people both individuals and whole groups and how they join with personal dispositions to determine whether people remain passive in the face of others need or instead help others and behave in morally courageous or even heroic ways He considers how moral and caring values can be subverted by circumstances and outlines ways to resist that possibility
