Social Media Consumption is an essential reference book that investigates the current trends practices and newly emerging narratives on theoretical and empirical research on all aspects of social media and its global use Covering topics that include fake news detection social media addiction and motivations and impacts of social media use this book is ideal for big data analysts media and communications experts researchers academicians and students in media and communications information systems and information technology study programs Research Handbook on Information Systems and Society Arti Jain,John Wang,Arun K. Yadav,2025-07-15 This incisive Research Handbook on Information Systems and Society ISS explores the role of Information Systems in contemporary and future societies outlining the key sectors in which they are used and also examining their potential negative impacts such as privacy violations fake news and hate speech *Global Perspectives on Migration and Development* Irena Omelaniuk,2012-05-23 This volume is the first in a new Springer series to examine one of humanity s most pressing concerns global migration and its implications for development As population mobility grows in an ever more crowded world the Global Forum on Migration and Development GFMD has emerged as the most important global mechanism to deal with the urgent challenges it presents This book explores fresh strategies proposed by the GFMD in its fourth year of operation in Mexico and beyond Interrogating the relationship between migration and development the papers advance the Global Forum s aims of reducing poverty and empowering low income families everywhere In 2010 there were 214 million international migrants worldwide nearly two and a half times the number in 1965 By 2050 international migration is likely to expand sharply in scale reach and complexity due to growing demographic disparities environmental change shifting global political and economic dynamics technological innovations and social networks Migration can bring substantial gains to families in less developed countries and mobile labor is an axiomatic feature of the global economy Yet outward migration of skilled workers can seriously retard development at home and exert pressure on wages in host nations Balancing these and other conflicting concerns requires the substantive and expert discourse offered in this book Contributors discuss and propose concrete solutions to vital issues such as the debilitating costs of cross border labor recruitment and the provision of social and income protection for foreign contract workers With suggestions on how to facilitate connections between transnational families and gender and family sensitive immigration regimes this book aims to foster collaborative intergovernmental links as well as partnerships between governments civil society and international organizations It shows how the GFMD can positively influence policy and institutional behavior while addressing wider systemic factors in protecting mobile workers Social Media and the Armed Forces Eva Moehlecke de Baseggio,Olivia Schneider,Tibor Szvircsev Tresch,2020-09-07 Social media has fundamentally changed communication and interaction in today s society Apart from being used by individuals it is also omnipresent in public sector organisations such as the armed forces This book examines the opportunities and risks associated with social media in the context of the armed forces from an international social scientific perspective It discusses the impact of social media in the everyday life of

military personnel and analyses the extent to which social media influences their performance be it as a distraction or as a source of perceived appreciation It particularly highlights the representation of masculinity and femininity in military social media channels since the way gender is portrayed on social media has an effect on how future recruits and at the other end of the military career spectrum veterans feel they are approached The book also focuses on the new form of follow up discussion which enables the armed forces to interact with the population On social media the armed forces are publicly presented and this shapes the public s opinions on them Further the armed forces can use debates as a monitoring tool of society s attitudes towards them or towards events that have an effect on society Conversely social media can lend a voice to military personnel allowing them to be publicly heard As discussions on social media can only be controlled to a limited extent the context in which the armed forces are discussed alters their sphere of influence and potentially leads to a loss of control An extreme example of this is the use of social media as a tool to strategically distribute misinformation in order to shape public opinion and threaten national security Moreover the use of social media to demoralise adversaries or to harm their credibility results in social media being considered a cyber weapon that affects politics and military activities
