Sociologie Et Religions Liliane Voyé, Jaak Billiet, 1999 What are the relations between sociology and the different religions Christianity with its various branches Judaism Islam Oriental religions sects and New Religious Movements That is the question which this work conceived on the occasion of the XXVth Conference of the International Society for the Sociology of Religion Socié t Internationale de Sociologie des Religions SISR wishes to clarify The book retraces the varied and troubled history of these relations and also reveals how in opening up its research to other religions besides the Christian sociology is forced to redefine the very object of its field of study What is the religious This question which until recently was considered impertinent informs this book throughout If confronts the necessity of rethinking theories and methodological approaches which constructed in the context of 19th and early 20th century Western Europe prove to be rather inadequate for encompassing contemporary religious phenomena and religious manifestations in other contexts To these new theoretical and methodological demands is added for the sociologist a deontological imperative which takes on all the more importance today as the religious provokes passionate social debate

Sociologie des religions Olivier Bobineau, Sébastien Tank-Storper, 2007-08-29

Cet ouvrage couvre toute l'histoire du champ. Après une introduction posant la question des liens entre religions et modernité, il se divise en trois grandes parties. La première est consacrée aux deux principaux fondateurs, Durkheim et Weber, la seconde aborde les questions liées à la laïcisation et la pluralisation du champ religieux contemporain, la troisième clarifie les thèmes liés à l'individualisation du croire et la mobilité des identités et des pratiques religieuses. Le livre est pleinement en phase avec l'approche actuelle selon laquelle il ne s'agit plus désormais de penser la disparition du religieux mais plutôt sa transformation et son adaptation aux contextes politiques et culturels de la modernité.

The Sociology of Religion Grace

Davie, 2013-01-15 Why is religion still important? Can we be fully modern and fully religious? In this new edition, Davie follows up her discussion of the meaning of religion in modern society and considers how best to research and understand this relationship. Exploring the rapid movements within the sociology of religion today, this revised and updated book describes the origins of the sociology of religion, demystifies secularization as a process and a theory, relates religion to modern social theory, unpacks the meaning of religion in relation to modernity and globalization, grasps the methodological challenges in the field, provides a comparative perspective for religions in the West, introduces questions of minorities and margins, sets out a critical agenda for debate and research. The Sociology of Religion has already proved itself as one of the most important titles within the field; this edition will ensure that it remains an indispensable resource for students and researchers alike.

Sociologie de la religion Max Weber, 2006. Achieved for the essential in 1913, the Sociology of Religion is the grand manual synthesis that hangs from the studies of Max Weber 1864 1920 on Protestantism, Judaism and the religions of Asia. Initially conceived as a section of the posthumous Economy and Society, this study makes here the object of a new edition, with a new translation, annotations and commentary on Max Weber, and the tools of an approach, both systematic and remarkably subtle, of religious practices. The Sociology of Religion is not only a source of inspiration for the sociologist, the historian or the anthropologist, but also a lesson in tolerance, in the fineness of the gaze. In that of Max Weber, softened by a diligent and patient exercise of comparatism, an alternative like that of

primitifs et des civilisations n'a pas lieu d'être. En rupture avec l'évolutionnisme ethnocentrique de son époque, Weber insiste moins sans les nier sur les différences culturelles et interreligieuses que sur les lignes de conflit internes toutes les religions. Une violente tension sociale oppose selon lui le peuple occupé par les détenteurs professionnels du savoir religieux attachés à la définition de dogmes et la préservation de la stabilité des institutions au peuple où se retrouvent la fois des prophètes et des virtuoses religieux en rupture avec les rites et les institutions ainsi que des laïcs toujours soucieux de rappeler que la religion doit aussi répondre des attentes magiques de bienfaits dans la vie quotidienne et de secours face à l'incertitude du destin.

Isabelle Kalinowski, germaniste et sociologue, est chargée de recherche au CNRS. De Max Weber, elle a notamment traduit et présenté dans la collection Champs Plammarion *L'Éthique protestante et l'esprit du capitalisme* et avec Roland Lardinois *Hindouisme et Bouddhisme*.

The Sociology of Religion Roberto Cipriani, In adopting an international perspective that goes beyond the conventional framework of western theology this volume bridges the divide between European and North American scholars through its careful retrieval of their common theoretical and research interests. Cipriani provides a critical analysis of both classical thought and contemporary currents in this readable text aimed at both experts and students. He has achieved a broadening in the scientific approach to the study of religion.

An Introduction to the Sociology of Religion Inger Furseth, Pål Repstad, 2006-01-01 An Introduction to the Sociology of Religion provides an overview of sociological theories of contemporary religious life. Some chapters are organized according to topic. Others offer brief presentations of classical and contemporary sociologists from Karl Marx to Zygmunt Bauman and their perspectives on social life including religion. Throughout the book illustrations and examples are taken from several religious traditions.

Sociology of World Religions V. G. Nayar, M. G. Nayar, 2002-08 Sociology of religion is concerned with explaining religion as a social institution. The roles that beliefs and practices of religion play in the regulation of social relationships and the various ways in which religion emerges as the strongest motivating factor effecting human behaviour. The part played by religion in revolutionary social movements in precipitating large scale social action including war as also the ways religion influences day to day social behaviours all fall within the gambit of Sociology of Religion. The process of Mythologization and Demythologization. The Universalist Thesis. The Concept of Seva in Indian Religion have also received very adequate attention. Apart from the mapping of diversity the nature of continuity between tribal primitivism and folk or popular Hinduism as well as the contrast between tribal religion and the philosophical traditions in world religion and with special contrast to the Indian religion which were the main theoretical interests of the scholars has been also included in this Encyclopaedia. The other major gaps in research areas which are usually not taken into account have also received
