conception of sociology as a discipline going beyond the compilation and interpretation of empirical facts its truth being inseparable from the essential structure of society itself Adorno sees sociology not as one academic discipline among others but as an over arching discipline that impinges on all aspects of social life Tracing the history of the discipline and insisting that the historical context is constitutive of sociology itself Adorno addresses a wide range of topics including the purpose of studying sociology the relation of sociology and politics the influence of Saint Simon Comte Durkheim Weber Marx and Freud the contributions of ethnology and anthropology the relationship of method to subject matter the problems of quantitative analysis the fetishization of science and the separation of sociology and social philosophy Sociology CN Shankar Rao,2012 This textbook has been comprehensively written to acquaint the students with the fundamental concepts of sociology as well as provide an introduction to the diverse field of sociology Students will be introduced to the origins of sociology as a discipline and would get acquainted with relevant topics such as inequality institutions control change disorganisation problems in the society Topics such as applied sociology and social thought have also been provided to give a complete overview of the subject This textbook not only caters as a primary text to the undergraduate students of Sociology but is also a useful reference for postgraduate students and aspirants appearing for various competitive examinations
