This product is prohibited from indoor unit installation. Don't use paper checking operation and Auto Addressing Mode when one indoor unit is installed.

- Switch the system on and wait for code "E 1 99" to appear on the display of the external unit (this requires approximately 60 seconds \*\*).
- As soon as code "E 1 99" displays, press once the red button (R1) shown on the figure on the side of the page.

If the quantity of indoor units connected is lower than maximum connectable to outdoor unit, the binary switch (SW2) has to be positioned, in order to select a number equal to indoor units' quantity you connected.

After a few minutes (from a minimum of 3 to 5 minutes for the internal unit), the system stops automatically, completing the self test and addressing procedure.  
"1-5" appears on the display of the external unit.
