Thank You for Choosing Samsung

Thank you for choosing Samsung! Your new Samsung Projection TV represents the latest in television technology. We designed it with easy-to-use on-screen menus and closed captioning capabilities, making it one of the best products in its class. We are proud to offer you a product that will provide convenient, dependable service and enjoyment for years to come. If you have any problem in an initial installation, please feel free to contact SAMSUNG Customer Care Center at 1-800-SAMSUNG (1-800-726-7864).

Important Warranty Information Regarding Television Format Viewing

Standard screen format televisions (4:3), the aspect ratio of the screen width to height, are primarily designed to view standard format full motion video. The images displayed on them should primarily be in the standard 4:3 ratio format and constantly moving. Displaying stationary graphics and images on screen, such as the dark top and bottom borderlines bars (wide screen pictures), should be limited to no more than 17% of the total television viewing per week.

Wide screen format televisions (16:9), the aspect ratio of the screen width to height, are primarily designed to view wide screen format full motion video. The images displayed on them should primarily be in the wide screen 16:9 ratio format, or expanded to fill the screen if your model offers this feature, and constantly moving. Displaying stationary graphics and images on screen, such as the dark side bars on non-expanded standard format television video and programming, should be limited to no more than 17% of the total television viewing per week.

Additionally, viewing other stationary images and text such as stock market reports, video game displays, station logos, web sites or computer graphics and patterns, should be limited as described above for all televisions. Displaying any stationary images that exceed the above guidelines can cause screen aging of picture tubes (CRTs) that leave subtle, but permanent burned-in ghost images in the television picture. To avoid this, vary the programming and images, and primarily display full screen moving images, not stationary pictures or dark bars. On television models that offer picture aging features, use these controls to view the different formats as a full screen picture.

Be careful in the selection and duration of television formats used for viewing. Screen CRT aging as a result of format selection and use, as well as other burned-in images, is not covered by your Samsung limited warranty.
