

TOEFL PRACTICE TEST - 1

SECTION 1

LISTENING COMPREHENSION

Time-approximately 35 minutes

(including the reading of the directions for each part)

In this section of the test, you will have an opportunity to demonstrate your ability to understand conversations and talks in English. There are three parts to this section. Answer all the questions on the basis of what is stated or by the speakers you hear. Do not take notes or write in your test book at any time. Do not turn the pages until you are told to do so.

Part A

Directions: In Part A you will hear short conversation between two people. After each conversations, you will hear a question about the conversation. The conversations and questions will not be repeated. After you hear a question, read the four possible answer in your test book and choose that best answer. Then, on your answer sheet, find the number of the question and fill in the space that corresponds to the letter of the answer you have chosen.

Building a Validity Argument for the Test of English as a Foreign Language™ Carol A. Chapelle, Mary K. Enright, Joan M. Jamieson, 2011-04-06 The Test of English as a Foreign Language™ TOEFL is used by more universities worldwide than any other test to assess English language proficiency for academic admission and placement decisions and to guide English language instruction This landmark volume provides a

detailed description and analysis of Educational Testing Service's research and development efforts to develop a major revision of the TOEFL test. The result is a book that serves as a case study of test design drawing upon theory in the complex domain of English language proficiency while attempting to meet standards of educational measurement. *Building a Validity Argument for the Test of English as a Foreign Language™* is distinctive in its attempt to develop a coherent story of the rationale for a test or its revision, explain the research and development process, and provide the results of the validation process. Through its treatment of one test, it expands on and tests principles and approaches to educational measurement, providing an in-depth integrated perspective on the overall process of test revision. Moreover, because the conceptual foundation and history are presented alongside the empirical studies and validity argument, these sometimes disparate areas are presented in a way that demonstrates their connections, an approach which represents a departure from or extension of conventional materials on test revision. This volume is particularly relevant for professionals and graduate students in educational measurement, applied linguistics, and second language acquisition, as well as anyone interested in assessment issues.

Biomedical Graduate School David McKean, Ted Johnson, 2010. *Biomedical Graduate School: A Planning Guide to the Admissions Process* is an indispensable resource for college students aspiring to a PhD or MD/PhD. It helps students identify the structure of advanced degree programs and how these degrees can enhance their potential career options. The book discusses how students can optimize selection of academic courses, research experiences, and extracurricular activities during their undergraduate education to make them more competitive candidates for graduate and medical school programs. It guides students through the many facets of the admissions process, including criteria for selecting where to apply, how to prepare an application that maximizes their academic credentials, how to prepare for the interview process, how faculty evaluate applicants, and how to utilize a rational process to select a graduate school or medical school that will enable students to meet their academic goals.
