is the specification of The Open Group IT4IT Standard Version 3.0 a standard of The Open Group. It describes a reference architecture that can be used to manage the business of Information Technology (IT) and the associated end-to-end lifecycle management of Digital Products. It is intended to provide a prescriptive Target Architecture and clear guidance for the transformation of existing technology management practices for a faster, scalable, automated, and practical approach to deploying product-based investment models and providing an unprecedented level of operational control and measurable value. This foundational IT4IT Reference Architecture is independent of specific technologies, vendors, organization structures, process models, and methodologies. It can be mapped to any existing technology landscape. It is flexible enough to accommodate the continuing evolution of operational and management paradigms for technology. It addresses every Digital Product lifecycle phase from investment decision making to end of life. The IT4IT Standard addresses a critical gap in the Digital Transformation toolkit: the need for a unifying architectural model that describes and connects the capabilities, value streams, functions, and operational data needed to manage a Digital Product Portfolio at scale. The IT4IT Standard provides an approach to making digital investment decisions and managing digital outcomes that is particularly useful for C-level executives responsible for Digital Transformation as a top-down view of digital value creation. Product Managers and Product Marketing Managers whose portfolios include significant digital content as a way to integrate marketing priorities with product delivery practices. Governance, risk, and compliance practitioners as a guide to controlling a modern digital landscape. Enterprise and IT Architects as a template for IT tool rationalization and for governing end-to-end technology management architectures. Technology buyers as the basis for Requests for Information (RFIs) and Requests for Proposals (RFPs) and as a template for evaluating product completeness. Consultants and assessors as a guide for evaluating current practice against a well-defined standard. Technology vendors as a guide for product design and customer integrations. Technical support staff as a guide for automating and scaling up support services to deal with modern technology deployment velocity.

The Open Group, 2022-04-26 This document is a compilation of TOGAF Series Guides addressing Business Architecture. It has been developed and approved by The Open Group and is part of the TOGAF Standard 10th Edition. It consists of the following documents: TOGAF Series Guide Business Models. This document provides a basis for Enterprise Architects to understand and utilize business models which describe the rationale of how an organization creates, delivers, and captures value. It covers the concept and purpose of business models and highlights the Business Model Canvas™ technique. TOGAF Series Guide Business Capabilities Version 2. This document answers key questions about what a business capability is and how it is used to enhance business analysis and planning. It addresses how to provide the architect with a means to create a capability map and align it with other Business Architecture viewpoints in support of business planning processes. TOGAF Series Guide Value Streams. Value streams are one of the core elements of a Business Architecture. This document provides an architected approach to developing a business value model. It addresses how to identify, define, model, and map a value stream to other key components of an enterprise's Business Architecture. TOGAF Series Guide Information Mapping. This document describes how to develop an Information Map that articulates, characterizes, and visually represents information that is critical to the business. It provides architects with a framework to help understand what information matters most to a business before developing or proposing solutions. TOGAF Series Guide Organization Mapping. This document shows how organization mapping provides the organizational context to an Enterprise Architecture. While capability mapping exposes what a business does and value stream mapping exposes how it delivers value to specific stakeholders, the organization map identifies the business units or third parties that possess or use those capabilities and which participate in the value streams. TOGAF Series Guide Business Scenarios. This document describes the Business Scenarios technique, which provides a mechanism to fully understand the requirements of information technology and align it with business needs. It shows how Business Scenarios can be used to develop resonating business requirements and how they support and enable the enterprise to achieve its business

For Your Information Philip Tetlow, 2024-08-12 In recent times physicists have come to appreciate information's central role in the universe's grand plan That and the fact that an explicit understanding of the informational relationships involved may well be key to unlocking many of the universe's deepest secrets That makes the birth of both Computer and Information Science not only essential to the explosion of modern technological success but also to our understanding of reality itself In recognizing that what unfolds is a story not only about Alan Turing and his pioneering colleagues but also great thinkers like Albert Einstein Michael Faraday Ludwig Wittgenstein and others It therefore pulls in much of modern history and touches on seminal events like the birth of the atomic bomb It also hints at the reasons behind the various social and political divides we see in the world today So in many ways the story of how we became more informed about information is also the story of the modern age What you will read of here is the role that information plays in that ongoing saga and many of the twists and turns that have brought us to where we are with information today In it you will learn that unbeknown to Turing and others their work would not only help overthrow the Nazis and thaw the chilling atmosphere of the Cold War to come but also echo down the ages to remain relevant in a conflict still raging today That sees the Computer and Information Scientists at loggerheads as they fight to find a right and justifiable place for meaning in information's definition About The Open Group Press The Open Group Press is an imprint of The Open Group for advancing knowledge of information technology by publishing works from individual authors within The Open Group membership that are relevant to advancing The Open Group mission of Boundaryless Information Flow™ The key focus of The Open Group Press is to publish high quality monographs as well as introductory technology books intended for the general public and act as a complement to The Open Group standards guides and white papers The views and opinions expressed in this book are those of the authors and do not necessarily reflect the consensus position of The Open Group members or staff

Ecosystems Architecture Philip Tetlow, Neal Fishman, Paul Homan, Rahul, 1970-01-01 Today modern business is adrift in a sea of connectivity and potential Where once an organization's IT needs could be met from within its four walls we now see many mission critical systems reaching out beyond an enterprise's traditional boundaries This is pushing solutions design well beyond the comfort zone of Enterprise Architecture and out into a world of hyper

enterprise systems This is a world of complexity and scale where the changing status quo demands that organizations keep up or die To survive their IT systems must also evolve as the context of their environment s ebbs and flows The result is a dynamic interconnected web of critical business advantage balanced against uncertainty and risk and infused with AI This is the world of Ecosystems Architecture This book will introduce you to the challenges of designing hyper enterprise IT systems and the tools you will need as the era of Ecosystems Architecture dawns It explains the proximity of new thinking to long held architectural tenets and outlines how and why thinking has moved on It also reviews existing frameworks and explains how and why they fit into the broader landscape of architectural thinking About The Open Group Press The Open Group Press is an imprint of The Open Group for advancing knowledge of information technology by publishing works from individual authors within The Open Group membership that are relevant to advancing The Open Group mission of Boundaryless Information Flow™ The key focus of The Open Group Press is to publish high quality monographs as well as introductory technology books intended for the general public and act as a complement to The Open Group Standards Guides and White Papers The views and opinions expressed in this book are those of the authors and do not necessarily reflect the consensus position of The Open Group members or staff

Togaf Version 9 Foundation Study Guide: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have captivated audiences this year. Togaf Version 9 Foundation Study Guide : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Togaf Version 9 Foundation Study Guide : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Togaf Version 9 Foundation Study Guide : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
