

The TomTom BRIDGE device

Starting the TomTom BRIDGE device

The TomTom BRIDGE starts when you switch on your vehicle's ignition. You can also press the On/Off button until the device starts.

The TomTom BRIDGE home screen is shown.

Note: The TomTom BRIDGE home screen shown below is an example. The home screen on your TomTom BRIDGE device might look different and have different apps installed.

1. The TomTom Navigation app in a widget. Select the widget to open the app.

Note: A widget is an app that runs in its own panel. You can select a widget to open the full app.

2. **Settings** button. Select Settings to change features on your TomTom BRIDGE device.
3. **Back** button. Select this button to returns to the previous screen that was open.
4. **Home** button. Select this button to return to the device home screen.
5. [Navigation bar](#). You can add shortcuts to your favourite apps to this bar.
6. **Software update** button. Updates the TomTom BRIDGE device to the latest software version.

TomTom BRIDGE device features

The TomTom BRIDGE device uses the Android operating system. TomTom and the device owner have changed the operating system in the following ways:

- Certain Android features have been disabled, either by TomTom or by the device owner. This makes the device safer and easier to use while driving.
- Some new features and apps have been added, both by TomTom and by the device owner. These additions customize the device so it is relevant for the functions it will be used for.

The features and apps added by TomTom are as follows:

Important: For other TomTom BRIDGE device settings and operation, and for instructions about other apps on the device, please refer to the applicable User Documentation.

Apps on the TomTom BRIDGE device

The TomTom BRIDGE device is an Android device that has different apps installed on it. Some of the apps will be standard Android apps, for example a browser, a clock and a photo-gallery. On some devices, depending how they are configured, you might be able to add apps using Google Play Store. Specialized apps could be added by the device owner, and TomTom has also added apps.

Note: Some TomTom BRIDGE devices might be locked to prevent you adding your own apps.

You can find other apps on the device by scrolling right, then selecting **All apps**.

You can also add up to two app quick-launch buttons to the device's [Navigation bar](#) for apps you want to use often.

Modernist Work John Attridge,Helen Rydstrand,2019-07-25 Through a wide ranging selection of essays representing a variety of different media national contexts and critical approaches this volume provides a broad overview of the idea of work in modernism considered in its aesthetic theoretical historical and political dimensions Several individual chapters discuss canonical figures including Richard Strauss Joseph Conrad Virginia Woolf Franz Kafka and Gertrude Stein but Modernist Work also addresses contexts that are chronologically and geographically foreign to the main stream of modernist studies such as Swedish proletarian writing Haitian nationalism and South African inheritors of Dada Prominent historical themes include the ideas of class revolution and the changing nature of women s work while more conceptual chapters explore topics including autonomy inheritance intention failure and intimacy Modernist Work investigates an important but relatively neglected topic in modernist studies demonstrating the central relevance of the concept of work to a diverse selection of writers and artists and opening up pathways for future research

Designing Mobile Service Systems Els van de Kar,Alexander Verbraeck,2008 Annotation In this book we describe the design of services from a systems perspective In this systems perspective we explain three elements of the service system that have to be balanced the service concept with the value proposition to the users the organisational network in which stakeholders have to cooperate to develop and deliver the service and the technical architecture that uses information and communication technologies to deliver the content These three main elements of a service system are described in detail and illustrated with examples of services from different domains The elements are

integrated into a methodology that describes how to design implement and test mobile service systems The trend is that service systems will become time and place independent and at the same time context dependent Therefore the design of service systems that can be used anytime and anyplace will become common practice Jacket **Friends' Intelligencer**,1871 **Help-Our-Planet-Earth (HOPE)** Paul Watterworth,2015-09-01 Robert walked towards the hospital emergency entrance The smell of death was over powering Many of the cars blocking the ambulance entrance had their lifeless occupants slumped over the steering wheels or their heads propped against the car windows The sliding doors were propped open by more bodies of virus casualties Robert looked deeper into the dark hospital and turned around The hospital was not receiving more patients Jillian stared over the city of Hong Kong from the eighteenth floor of the luxury hotel Although it was the middle of the day the entire city was dead Not a car boat or person was moving The hotel had no water phone or electricity Despair washed over her as she thought of her children She prayed that her two boys survived the virus The problem was that they were a very large ocean away Adapting to the new world was difficult Finding and protecting your family was an even greater challenge Brilliant Ideas for Using ICT in the Inclusive Classroom Sally McKeown,Angela McGlashon,2019-02-13 Runner up in Teach Secondary s Technology and Innovation Awards 2014 sponsored by Lego Brilliant Ideas for using ICT in the Inclusive Classroom provides lots of simple practical ideas showing teachers and support staff how they can use ICT to boost the achievement of all pupils How can you use ICT to boost the achievement of all your pupils This practical teachers guide will help you to unlock the enormous potential of new technology in order to enhance pupils learning particularly for young people with additional needs Written by two of the UK s leading technology experts this invaluable and newly updated resource will enable you to use ICT effectively to make lessons more accessible motivating and fun With fifty illustrated case studies and twenty starter activities this practical resource will help you to introduce new technology into the inclusive classroom It has been specifically designed to help develop your pupils key skills such as problem solving developing concepts and communicating to different audiences In each activity the authors show why and how a particular resource was used and show how similar techniques can be implemented to open up the curriculum to your learners The authors include timely and realistic advice on how to use a range of technologies from the cheap and cheerful and even free to more sophisticated and specialist packages Find out about Apps Blogging Digital animation Podcasting Digital storytelling Wikis Geocaching Coding Games and gaming Sat nav Art packages Twitter Whether you re already techno savvy or looking to get started with ICT this book is full of brilliant ideas on how to engage learners of all abilities using technology If you re looking for inspiration on how to integrate creative uses of ICT with the curriculum this book will prove invaluable **Tom the piper's son! or Harlequin Buffaloe Bill, and the magic jam pot (pantomime)** by G.
