Financial Accounting Gary A. Porter, Curtis L. Norton, 2004 The fourth edition of Financial Accounting teaches accounting from both the preparer and user perspective To lead students to a full understanding of the impact of financial statements on business decision making the authors use the financial statements from Winnebago Industries throughout the chapter and end of chapter material Porter Norton is unique in that it also uses a competing company to Winnebago Monaco Coach to do comparative financial analysis this is reflected throughout the text and in end of chapter problems

surprising that individual stocks such as Enron's and the entire stock market itself can be effectively mispriced as this book shows [PC Mag](#), 1984-03-20 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology **Forthcoming Books** Rose Arny, 2000 [Social Work Journal](#), 1921 **Research Methods in Practice** Dahlia K.
