Argenter,Jens Lüdtke,2020-04-06 This manual is intended to fill a gap in the area of Romance studies There is no introduction available so far that broadly covers the field of Catalan linguistics neither in Catalan nor in any other language The work deals with the language spoken in Catalonia and Andorra the Balearic Islands the region of Valencia Northern Catalonia and the town of l Alguer in Sardinia Besides introducing the ideologies of language and nation and the history of Catalan linguistics the manual is divided into separate parts embracing the description grammar lexicon variation and varieties and the history of the language since the early medieval period to the present day It also covers its current social and political situation in the new local and global contexts The main emphasis is placed on modern Catalan The manual is designed as a companion for students of Catalan while also introducing specialists of other languages into this field in particular scholars of Romance languages **Bibliographic Guide to Soviet and East**

European Studies ,1981 *Kids' Slips* Jeri J. Jaeger,2004-12-13 The study of speech errors or slips of the tongue is a time honored methodology which serves as a window to the representation and processing of language and has proven to be the most reliable source of data for building theories of speech production planning However until Kids Slips there has never been a corpus of such errors from children with which to work This is the first developmental linguistics research volume to document how online processing is revealed in young children ages 18 months through 5 years through their slips of the

tongue Thus this text provides a new methodology and data source which will greatly expand our ability to uncover the details of early language development Professor Jaeger s groundbreaking book incorporates both details of her methodology and findings with implications for different aspects of language development including phonetics and phonology the lexicon semantics morphology and syntax While all the child data is included in the book a Web site hosted by the author provides readers with the adult data as well Kids Slips targets those who study language development in linguistics developmental psychology and speech and hearing as well as those who study language representation and processing more generally in the same disciplines
