Reliable Software Technologies -- Ada-Europe 2013 Hubert B. Keller,Erhard Plödereder,Peter Dencker,Herbert Klenk,2013-05-27 This book constitutes the refereed proceedings of the 18th Ada Europe International Conference on Reliable Software Technologies Ada Europe 2013 was held in Berlin Germany in June 2013 The 11 full papers presented were carefully reviewed and selected from various submissions They are organized in topical sections on multi core and distributed systems Ada and Spark dependability and real time systems   Bridging the Gap Grazia Brunetta,Alessandra Faggian,Ombretta Caldarice,2021-06-10 The concept of resilience has arisen as a new way of thinking becoming a response to both the causes and effects of ongoing global challenges As it strongly stresses cities transformative potential resilience s final purpose is to prevent and manage unforeseen events and improve communities environmental and social quality Although the resilience theory has been investigated in depth several methodological challenges remain mainly related to the concept s practical sphere As a matter of fact resilience is commonly criticised for being too ambiguous and empty of meaning At the same time turning resilience into practice is not easy to do This will arguably be one of the most impactful global issues for future research on resilience The Special Issue Bridging the Gap The Measure of Urban Resilience falls under this heading and it seeks to synthesise state of the art knowledge of theories and practices on measuring resilience The Special Issue collected 11 papers that address the following questions What are the theoretical perspectives of measuring urban resilience What are the existing methods for measuring urban resilience What are the main features that a technique for measuring urban resilience needs to have What is the role of measuring urban resilience in operationalising cities ability to adapt recover and benefit from shocks   *Modeling Decisions for Artificial Intelligence* Vicenç Torra,Yasuo Narukawa,Aoi Honda,Sozo Inoue,2017-09-12 This book constitutes the proceedings of the 14th International Conference on Modeling Decisions for Artificial Intelligence MDAI 2017 held in Kitakyushu Japan in October 2017 The 18 revised full papers presented together with one invited paper and three abstracts of invited talks were carefully reviewed and selected from 30 submissions Providing a forum for researchers to discuss models for decision and information fusion aggregation operators and their applications to AI the papers are organized in topical sections on aggregation operators fuzzy measures and integrals clustering and classication data privacy and security data mining and applications   Reconsidering Context in Language Assessment Janna Fox,Natasha Artemeva,2022-04-06 This volume reconsiders the problem of context in language testing and other modes of assessment from the perspective of transdisciplinarity Transdisciplinary assessment research brings together collaborators who draw on the strengths of their differing backgrounds and expertise in order to address high stakes complex socially relevant problems Traditional treatments of context in language assessment research have generally been informed by individualist cognitive theories within measurement and psychometrics The additive potential of alternative social theories including theories of genre situated learning distributed cognition and intercultural

communication has largely been overlooked In this book the benefits of socio theoretical reconsiderations of context are discussed and further exemplified in transdisciplinary research studies that investigate the use of assessment in classroom and workplace settings The book offers a renewed view of context in arguments for the validity of assessment practices and will be of interest to assessment researchers practitioners and students in applied linguistics education educational psychology language testing and other related disciplines and fields **Assessing Multilingual Children** Sharon Armon-Lotem,Jan de Jong,Natalia Meir,2015-04-28 Second language learners often produce language forms resembling those of children with Specific Language Impairment SLI At present professionals working in language assessment and education have only limited diagnostic instruments to distinguish language impaired migrant children from those who will eventually catch up with their monolingual peers This book presents a comprehensive set of tools for assessing the linguistic abilities of bilingual children It aims to disentangle effects of bilingualism from those of SLI making use of both models of bilingualism and models of language impairment The book s methods oriented focus will make it an essential handbook for practitioners who look for measures which could be adapted to a variety of languages in diverse communities as well as academic researchers Projects, Government, and Public Policy Stanisław Gasik,2022-11-25 Many governments have effectively organized public project implementation systems in their jurisdictions At the same time many other countries remain at a less advanced level of public project management Globally there is a need for project management knowledge to be transferred between governments However no systematic review of these practices has been developed to date Projects Government and Public Policy was written to fulfill this need and presents a review of project management practices in countries with developed project based capabilities This book uses its own rigorous model to present this review systematically This book s practical purpose is to give a structured overview of government level project management practices This knowledge can be used in the work of governments to improve the management of public projects and the implementation of public policies Many professionals working in public institutions understand project management concepts differently than project management professionals Therefore this book begins with a chapter that describes the differences between the conceptual basis of public administration and project management The body of this book has five parts Part I is mainly intended for those involved in government and public administration who want to acquire or increase knowledge about project management Part II provides an overview of the basic concepts from the theory of public administration public policies and development management Part III describes what makes public projects unique and the success factors specific to projects of this sector Knowledge about effective government project management practices is covered in Part IV The concluding Part V begins with a general overview of the maturity model concept Its main part covers the description of a maturity model showing ways to systematically improve the implementation of public projects This book is written for governments and government administrators including the most influential decision makers who craft policies to guide a country s

development as well as how to implement projects This book is also intended for supporters and enthusiasts of project management in government and public administration by providing them with a description of the solutions used by project management in public administration This book is intended too for all project management practitioners working for public projects project managers team members sponsors and middle level executives of project delivering private companies By knowing public administration concepts they can manage their projects better and use a common language with their clients

NHS to the Coronavirus pandemic The Coronavirus pandemic in 2020 has changed life as we know it and thrust the NHS into the spotlight A nation in lockdown has adorned windows with rainbows and stepped onto doorsteps every Thursday to celebrate the people who are risking their lives by turning up to work But as the grim reports of deaths from the disease cumulate along with stories of insufficient protective equipment for staff there is hope that the crisis will raise awareness and bring change to the way the NHS and its people are treated At midnight on 5 July 1948 the National Health Service was born with the founding principal to be free at the point of use and based on clinical need rather than on a person s ability to pay Over seventy years since its formation these core principals still hold true but the world has changed Persistent underfunding has not kept pace with increased demand for healthcare leading to longer waiting times staffing shortages and low morale This book traces the history of our health service from Victorian healthcare and the early 20th century through a timeline of change to the current day comparing the problems and illnesses of 1948 to those we face today Politics and funding are demystified and the effects of the pandemic are discussed alongside personal stories from frontline staff and patients who have experienced our changing NHS Ellen s book takes us on an emotional journey through the history of our beloved NHS This should be compulsory reading for anyone who thinks the NHS is safe in the hands of anyone but the Labour Party Absolutely enthralling Books Monthly   Spatializing Social Media Marco Bastos,2021-08-19 Spatializing Social Media charts the theoretical and methodological challenges in analyzing and visualizing social media data mapped to geographic areas It introduces the reader to concepts theories and methods that sit at the crossroads between spatial and social network analysis to unpack the conceptual differences between online and face to face social networks and the nonlinear effects triggered by social activity that overlaps online and offline The book is divided into four sections with the first accounting for the differences between space the geometrical arrangements that structure and enable forms of interaction and place the mechanisms through which social meanings are attached to physical locations The second section covers the rationale of social network analysis and the ontological differences stating that relationships more than individual and independent attributes are key to understanding of social behavior The third section covers a range of case studies that successfully mapped social media activity to geographically situated areas and considers the inflection of homophilous dependencies across online and offline social networks The fourth and last section of the book explores a range of networks and discusses methods for and approaches to plotting a social network graph onto a map including the purpose built R package Spatial Social Media The book takes a non mathematical approach to social networks and spatial statistics suitable for postgraduate students in sociology psychology and the social sciences   Science Fraud: Darwin's Plagiarism of Patrick Matthew's Theory Mike Sutton,2023 Patrick Matthew in 1831 originated the complete theory of evolution by natural selection in his book On Naval Timber and Arboriculture and did so before Charles Darwin and Alfred Wallace claimed to independently replicate it in 1858 Unjustly and against the Arago convention on priority a ruling that gives origination of any science theory to the first to

publish Matthew has been illicitly denied his priority on the grounds he never influenced anyone with his breakthrough Today Big Data research has uncovered Darwin s science fraud by plagiarism revealing evidence which proves beyond all reasonable doubt that he and Alfred Wallace both independently plagiarised the theory of evolution by natural selection from Patrick Matthew Books have been newly unearthed in the publication record to show that at least 30 people cited Matthew s work in published literature before 1858 and that several were known influencers of Darwin s and Wallace s work in the field Additionally several people in Darwin s and Wallace s social circles were first to be second into print using original terms coined by Matthew in his bombshell breakthrough book This book reveals all the newly unearthed data and essentially explains it alongside the deplorable treatment of Patrick Matthew in scholarly historical context Dr Mike Sutton further reveals using social science participatory observation methods and experimental results how members of the so called Darwin Industry enabled and facilitated by the deliberate publication of falsehoods and other grossly misleading editing on Wikipedia have disgracefully worked to re bury these newly unearthed facts by means of knee jerk blind sight ignorant rejection blatant and deliberate fact denial censorship persistent and serious workplace harassment obscene social media abuse poison pen emails lies mischievous misrepresentation and repeat research plagiarism **The Mining Journal, Railway and Commercial Gazette** ,1896 Moody's Bond Record ,1998 A Compendium of Neuropsychological Tests Elisabeth Sherman,Jing Tan,Marianne Hrabok,2023-04-25 The Compendium is an essential guidebook for selecting the right test for specific clinical situations and for helping clinicians make empirically supported test interpretations BL Revised and updated BL Over 85 test reviews of well known neuropsychological tests and scales for adults BL Includes tests of premorbid estimation dementia screening IQ attention executive functioning memory language visuospatial skills sensory function motor skills performance validity and symptom validity BL Covers basic and advanced aspects of neuropsychological assessment including psychometric principles reliability test validity and performance symptom validity testing Routledge Handbook of the Economics of European Integration Harald Badinger,Volker Nitsch,2015-10-05 Routledge Handbook of the Economics of European Integration provides readers with a brief but comprehensive overview of topics related to the process of European integration in the post World War II period Its short chapters reflect the most up to date and concise research written by a collective of experts on their own subjects The aim of this book is twofold Firstly the text illustrates the broad and diverse range of issues associated with European integration and lastly the key approaches and findings are summarised Since institutional integration in Europe is an ongoing process with possibly frequent and sometimes rapid changes the chapters are intended to focus on the key features of the economic analyses of these topics A wide and diverse set of economic issues is of direct relevance for European integration These topics cover various fields ranging from the history of the European Economic and Monetary Union EU Trade Policy and the stability of international trade single market issues over fiscal monetary and other policies the crisis that faces the Euro area and institutions such as EU Council of Ministers

Not surprisingly many of these issues have also been analysed from a European perspective This handbook is designed to provide students researchers the public and policy makers with ready and accessible knowledge of issues related to European integration and will provide the definitive overview of research in the area
