All About Penguins

Penguins are very interesting birds. They are the only birds that can't fly. Penguins use their flippers to swim. People think that penguins live in the North Pole, but they do not! They live in the southern part of the world. Penguins eat fish and other sea creatures they catch in the water. They spend half of their time in the water. There are many kinds of penguins. The biggest penguin is the Emperor Penguin. It can be over three feet tall. Penguins are cool!

Reading Day

Every year at my school, we have a special reading day. We spend the whole day reading and it is one of the best days of the year. We can bring in books from home, or read books in our classroom. We get to find cozy spots in the room to read our books. My teacher lets us bring in pillows and blankets so we can lay on the floor. We can bring in a stuffed animal to read to! This year my teacher said that we can wear pajamas and slippers to Reading Day. I cannot wait!

All About May Day

May Day is a holiday that is celebrated in places all around the world. On May Day, people celebrate the start of spring. May Day is on May 1st. In some places, towns have a Maypole. This is a tall pole that is decorated with flowers and ribbons. People hold onto the ribbons and dance around the Maypole. Some of them wear flowers in their hair. May Day is a fun way to celebrate the start of spring!

All About Summer

There are four seasons in every year: spring, summer, winter and fall. Summer is the season that is the warmest. It also has the longest days of any season. It starts on June 21 and ends on September 23. In the summer, the earth is tilted towards the sun. Then we have summer, the other half of the year. The world is having winter! Many people enjoy outdoor activities in the summer because of the warm weather. Most plants grow best during the summer months because of the amount of sunlight they receive.

McClelland,Shauna L. Tominey,2016-04-08 Self regulation has been identified as an important predictor of school readiness and academic achievement in young children Children who struggle with self regulation are at risk of experiencing peer rejection and academic difficulties Teachers report that there is high variability in children s self regulatory abilities at school entry and that children with an accumulation of risk factors are especially likely to enter school without adequate self

regulation skills Moreover early academic skills are often cumulative so children who fail to acquire early skills are at risk of falling behind their peers academically and facing achievement gaps that widen over time Although the relation between self regulation and school related outcomes has been clearly documented our understanding of the pathways through which self regulation influences early achievement and school success remains unclear This special issue considers previously neglected areas in the current understanding of self regulation The seven articles focus on issues including a the complex relations between self regulation and school readiness b predictors of self regulation and academic achievement and c advances in measurement of self regulation and related skills Research that continues to investigate the complex relations and mechanisms that influence early self regulation and related outcomes will inform policy and practice in ways that help all children develop the self regulation skills they need The volume will be of interest to researchers in the field of child development or education and educators and policy makers who are interested in promoting school readiness and academic success This book was originally published as a special issue of Early Education and Development
