

Slope-Intercept Stars

Name: _____

Rewrite each equation in slope-intercept form. Solve the problems in order beginning with #1. Show your work either within each large star or on a separate piece of paper. Place the slope or y-intercept, as indicated, in the small star. Then transfer that number into the empty box for the next question. Solve each problem in the same manner, always placing the answer to each problem in the empty box for the next. If you have solved the problems correctly, you should get the number that is in the small star as the answer to #8.
