Slow Burn English Edition:

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

English Mechanic and World of Science, 1871

The Foundations of the British Labour Party Matthew Worley, 2016-12-05 Interest in the Labour Party remains high particularly following the unprecedented election of a third successive Labour government and amidst the on going controversies that surround the New Labour project Increasingly the ideological basis of the Labour Party has come under scrutiny with some commentators and party members emphasizing progressive traditions within the party whilst others refer back to the trade union foundation of Labour This volume brings together a group of scholars working within the field of labour history to consider the various elements that influenced the early Labour Party from its formation into the 1930s The party's association with the trade union movement is explored through the railwaymen and mineworkers unions while further contributions assess the different ways in which the Independent Labour Party the co operative movement liberalism Christianity and the local party branches helped lay the foundations for Labour's growth from a parliamentary pressure group to a party of government

The Palgrave Handbook of Magical Realism in the Twenty-First Century Richard Perez, Victoria A. Chevalier, 2020-04-30 The Palgrave Handbook of Magical Realism in the Twenty First Century examines magical realism in literatures from around the globe Featuring twenty seven essays written by leading scholars this anthology argues that literary expressions of magical realism proliferate

globally in the twenty first century due to travel and migrations the shrinking of time and space and the growing encroachment of human life on nature In this global context magical realism addresses twenty first century politics aesthetics identity and social national formations where contact between and within cultures has exponentially increased altering how communities and nations imagine themselves This text assembles a group of critics throughout the world the Americas Europe Africa Asia the Middle East and Australia who employ multiple theoretical approaches to examine the different ways magical realism in literature has transitioned to a global practice thus signaling a new stage in the history and development of the genre

British Murder Mysteries - Josephine Tey Collection Josephine Tey,2022-11-13 Josephine Tey s British Murder Mysteries Josephine Tey Collection presents a captivating blend of classic detective fiction engaging storytelling and meticulous attention to detail Known for her deep character development and intricate plots Tey s collection offers readers a glimpse into the Golden Age of British crime fiction With each story presenting a unique and puzzling mystery readers will find themselves immersed in the fascinating world created by Tey s keen eye for detail and suspenseful storytelling Fans of the genre will appreciate the clever twists and turns that make this collection a standout in the realm of British detective fiction Tey s prose is characterized by its elegance and complexity making her work a timeless addition to the world of literature Fans of Agatha Christie and Dorothy L Sayers will surely find delight in this collection of mysteries Josephine Tey s British Murder Mysteries Josephine Tey Collection is a must read for anyone looking to dive into the world of classic British crime fiction

The Dual State Ernst Fraenkel,Jens Meierhenrich,2018-12-20 The Dual State first published in 1941 remains one of the most erudite books on the logic of dictatorship It was the first comprehensive analysis of the rise and nature of National Socialism and the only such analysis written from within Hitler s Germany Ernst Fraenkel s courageous ethnography of law was widely acclaimed upon publication and it has influenced considerably postwar debates about the nature of the Third Reich But The Dual State also has relevance for the study of dictatorship in the twenty first century Fraenkel s innovative concept of the dual state with its two halves the normative state which generally respects its own laws and regulations and the prerogative state which violates them wantonly illuminates powerfully the complicated relationship between law and order in many countries around the world It speaks directly to the idea of an authoritarian rule of law This republication of Fraenkel s classic makes it once again available to scholars and students in law the social sciences and the humanities It includes Fraenkel s 1974 preface to and two appendices from the first German edition never before published in English An extensive introduction by Jens Meierhenrich places Fraenkel s ethnography of law in historical and theoretical context

BRITISH MURDER MYSTERIES: The Greatest Thrillers of Josephine Tey Josephine Tey,2023-12-10 In British

Murder Mysteries The Greatest Thrillers of Josephine Tey readers are invited into the intricate labyrinth of Tey's celebrated narratives that blend psychological depth with the intrigue of classic whodunits. Tey, a master of suspense, utilizes her distinctive prose to create richly developed characters and a haunting atmosphere imbued with social commentary. Set against the backdrop of early 20th-century Britain, her novels often challenge the conventions of the genre, offering unexpected twists and moral complexities that elevate them beyond simple crime fiction. This collection shines a spotlight on Tey's exceptional ability to dissect human nature, making her works timeless contributions to the literary canon of mystery fiction.

Josephine Tey, born Elizabeth Mackintosh, was a pioneering Scottish author whose literary career spanned several tumultuous decades. Her experiences as a playwright and her keen insight into human behavior profoundly informed her writing style. Tey's unique perspective as a woman in a male-dominated literary landscape allowed her to craft nuanced stories that often subverted traditional gender roles, making her exploration of societal themes particularly relevant for her time and beyond. This anthology is essential for anyone seeking an introduction to Tey's literary brilliance or for seasoned readers eager to revisit her works. Her seamless blend of mystery, psychological insight, and social critique not only entertains but also invites profound reflections on morality and justice. This collection will captivate both dedicated fans of classic literature and new readers seeking rich, compelling narratives. In this enriched edition, we have carefully created added value for your reading experience. A succinct Introduction situates the work's timeless appeal and themes. The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. A detailed Historical Context immerses you in the era's events and influences that shaped the writing. A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. Reflection questions prompt you to engage personally with the work's messages, connecting them to modern life. Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read.

"A" New English Dictionary on Historical Principles William A. Craigie, James Augustus Henry Murray, 1919

Feliks Volkhovskii Michael Hughes, 2024-06-28 Feliks Volkhovskii (1846-1914) was a significant figure in the Russian revolutionary movement of the nineteenth and early twentieth centuries. He lived through pivotal changes ranging from the rise of nihilism in the 1860s and the growth of populism in the 1870s through to the creation of the Socialist Revolutionary Party in the early 1900s. Imprisoned three times before he turned thirty, he spent ten years in Siberian exile before fleeing abroad to join the fight against tsarist autocracy from western Europe. Following Volkhovskii's arrival in Britain in 1890, he played a central role in the campaign to win sympathy for the Russian revolutionary movement, editing newspapers and journals including *Free Russia*. He also helped to smuggle propaganda into Russia, as well as becoming one of the most prominent figures in the migr leadership of the Socialist Revolutionaries. Throughout his life, Volkhovskii was also a prolific writer of poetry and short stories and was on good terms with many leading literary figures of the time, including Ford Madox Ford and Edward and

Constance Garnett Michael Hughes's groundbreaking new biography provides a vivid history of this notable but hitherto neglected figure of both the political and literary worlds. Based on ten years of research in archives across the world and drawing on sources in multiple languages, this masterful biography explores how Volkhovskii's life illuminates broader intellectual and historical questions about the Russian revolutionary movement. It is essential reading for anyone interested in late Imperial Russia and the Russian revolution.

Invasions Christian K. Melby, 2025-04-15 *Invasions* is an ambitious new and authoritative study of one of the defining cultural products of the Victorian and Edwardian eras. By the outbreak of war in 1914, invasion scare fiction had profoundly changed British society, becoming not just a vibrant part of popular culture but a reference point among military planners, advertisers, and politicians. This intersection between politics and culture, between entertainment and war planning, sets invasion scare stories apart as one of the most versatile and interesting fictional products in modern British history. Building on recent work in both history and literature studies, *Invasions* is the first study of invasion scare fiction to examine both the form that is fiction and the function, the political argument, of the genre.

Dynastic Politics and the British Reformations, 1558-1630 Michael Questier, 2019-01-17 *Dynastic Politics and the British Reformations 1558-1630* revisits what used to be regarded as an entirely mainstream topic in the historiography of the later sixteenth and early seventeenth centuries, namely the link between royal dynastic politics and the outcome of the process usually referred to as the Reformation. As everyone knows, the principal mode of transacting so much of what constituted public political activity in the early modern period, and especially of securing something like political obedience, if not exactly stability, was through the often distinctly unmodern management of the crown's dynastic rights via the line of royal succession and, in particular, through matching into other royal and princely families. Dynastically, the states of Europe resembled a vast sexual chess board on which the trick was to preserve advance and then match to advantage one's own most powerful pieces. This process and practice were obviously not unique to the sixteenth and seventeenth centuries. But the changes in religion generated by the discontents of western Christendom in the Reformation period made dynastic politics ideologically fraught in a way which had not been the case previously, in that certain modes of religious thought were now taken to reflect on, critique, and hinder this mode of exercising monarchical authority, sometimes even to the extent of defining who had the right to be king or queen.

G T 3 The Unrealised Dream Tim Hillier-Graves, 2025-03-30 During the 1930s, with the end of steam locomotion being actively considered, many looked to develop engines powered by diesel and electricity. But for the coming of war in 1939 and the acute recession that followed, much more might have been accomplished. Nevertheless, the die had been cast, and during the late 1940s and 1950s, designers stepped up their efforts to find efficient and effective alternatives to steam. Amongst their number was John Hughes, who whilst working for English Electric, designing turbine engines, saw how this power source might be used to drive locomotives. In part, he was encouraged in these endeavours by William Stanier's 1935 introduced Pacific Turbomotive and wished to continue this experiment and exploit its

potential more fully For some the development of diesel and electric engines was the only logical course to take but not Hughes who doggedly pursued his dream of seeing gas turbine engines dominating Britain s railway network Despite many setbacks and lack of funds he refused to give up and eventually saw his locomotive GT3 built and then begin a prolonged period of trial running But having finally achieved this ambition the powers that be decided that the experiment had gone far enough and would go no further much to Hughes anger and frustration This is a what might have been story which although ultimately unsuccessful tells us much about the nature of design engineering and the need for determined radical thinkers who are prepared to push back scientific boundaries In this case GT3 came close to being the first of a type of engine that might have changed the direction Britain s railways took as steam came to an end As such it is a near miss worthy of remembrance To aid this work Hughes left a unique archive of documents drawings and photos in public and private hands to help us understand the nature of his work and what drove him on despite the long odds he faced *Journalism After September 11* Barbie Zelizer, Stuart Allan, 2011-04-22 This exciting collection raises important questions regarding what journalism should look like after the events of September 11th It will be necessary reading for those concerned with the integrity of journalistic practice *English Abstracts of Selected Articles from Soviet Bloc and Mainland China Technical Journals* ,1962 Norse Fighting Heroes Jamie Ryder, 2024-12-30 Investigates the complex lives of famous Vikings examining their spirituality ambitions and legendary adventures beyond mere conquest Vikings One of history s most recognizable archetypes These hardy warriors enjoyed fighting and conquering but there was much more to the culture than physical might A deep sense of spirituality and purpose permeated the Norse societies that dreamed beyond their borders And Norse history is a tapestry of adventurers kings wayfarers queens and conquerors who etched their names into legend Norse Fighting Heroes tells the stories of some of the most famous Vikings in history From the wanderlust of Bjorn Ironside to the boundless ambition of Harald Hardrada the lives of these people were anything but black and white Get to the heart of their wants loves fears reasons for living and dying **English Mechanic and Mirror of Science** ,1870
