Entrepreneurship in Emerging Economies Jerzy Cieřlik, 2016-12-10 In this book the author investigates the role of

entrepreneurship in the socio economic development of emerging economies highlighting its vital part in implementing development programs and policy initiatives In search of efficient ways to stimulate entrepreneurial activities Entrepreneurship in Emerging Economies reviews recent academic research and accumulated policy implementation experiences to identify measures and instruments which can be adopted within emerging countries institutional context Particular attention is given to three issues which have dominated the debate on the macroeconomic impact of entrepreneurship at the turn of the twenty first century job creation innovation and international trade and economic cooperation In the final chapter the author offers a holistic model of entrepreneurship policy to address the particular needs of emerging economies encompassing entrepreneurship policy favourable institutional environments and pragmatic principles for implementing selective policy measures QFINANCE Bloomsbury Publishing,2014-11-20 QFINANCE The Ultimate Resource 5th edition is the first step reference for the finance professional or student of finance Its coverage and author quality reflect a fine blend of practitioner and academic expertise whilst providing the reader with a thorough education in the may facets of finance Small Business Management Justin G. Longenecker,Carlos W. Moore,J. William Petty,2002-04 Private Sector Development in an Emerging World Diederik Boer,Harald Sander,Katharina Friz,Antonella Anastasi,2023-12-04 This book explores the interactions between private sector development public policies and societal institutions with a strong view on contributing to sustainable and inclusive development in emerging countries The private sector is often praised as an engine of economic growth This belief has led to significant efforts to promote private sector development in emerging countries Development agencies prioritize private sector development and national governments are following suit resulting in often huge incentives to stimulate and attract private investment However private sector development is not a panacea for sustainable and inclusive development as the past decades have clearly shown Economic growth societal development and environmental sustainability are often in a sharp conflict and more often than not economic growth has failed to improve the lives of all citizens This book examines the role the state and the private sector should play to benefit from the dynamics of business development while ensuring that these benefits are shared broadly without jeopardizing sustainability The views presented differ in detail but the analyses and case studies presented share common themes namely that the relative roles of state and private sector of should be balanced and that this particular balance should be based on the context of each country in order to make the private public sector interaction work for all people

Marketing Communications in Emerging Economies, Volume II Thomas Anning-Dorson,Robert E. Hinson,Stanley Coffie,Genevieve Bosah,Ibn Kailan Abdul-Hamid,2022-01-01 Drawing on the expertise of multi disciplinary scholars from emerging economies this volume aims to share fascinating perspectives on marketing communications by discussing the shift in the power of public relations and highlighting how the small and local use communication effectively to improve performance and shares useful lessons on how to communicate hope by responding to customer emotions during

uncertainties The book contains valuable lessons and insights on communicating corporate social responsibility effective social media communication enacting brand purpose through communication and using aesthetics in point of purchase advertising to drive purchase intention It is the first of its kind to highlight key conceptual issues and provide critical empirical evidence on marketing communications in and from emerging economies Corporate executives educators students policymakers and businesses would find this book a useful tool on marketing communication as it lays bare some important strategic and operational insights specific to emerging markets

The British National Bibliography Arthur James Wells, 2002

Forestry Economics John E. Wagner, 2023-12-22 Forestry Economics introduces students and practitioners to the economics of managing forests and forest enterprises The book adopts the approach of managerial economics textbooks and applies this to the unique problems and production processes faced by managers of forests and forest enterprises What many future forest and natural resource managers need is to understand what economic information is and how to use it to make better business and management decisions John E Wagner draws on his 30 years of experience teaching and working in the field of forest resource economics to present students with an accessible understanding of the unique production processes and problems faced by forest and other natural resource managers The second edition has been updated to include Expanded discussion of compounding discounting and capital budgeting as well as an expanded discussion of when to replace a capital asset that has i costs but no direct revenue stream such as a machine ii costs and a direct annual revenue stream such as a solar array or iii costs and a periodic revenue stream illustrated by the forest rotation problem New practical examples to provide students with applications of the concepts being discussed in the text most notably on New Zealand and a Radiata Pine *Pinus radiata* Plantation A brand new chapter that develops business plans for for profit businesses to illustrate how a business plan is derived from the economic information contained within the Architectural Plan for Profit and how it can be used to make business decisions about continuing to operate a business or to start a new business This textbook is an invaluable source of clear and accessible information on forestry economics and management not only for economics students but also for students of other disciplines and those already working in forestry and natural resources
