Sea Kayaking comprehensive guide for those who travel the open waters in the Southern Hemisphere Philip Woodhouse  
Australian paddler and Royal Australian Air Force veteran shares his years of experience technical training and military  
teaching skills What began as a personal reference was soon developed as a training manual recommended by the Victorian  
Sea Kayak Club to its members and East Coast Kayaking to their patrons and Australian Canoeing students Sea Kayaking  
covers boat design kit requirements paddling skills health and well being meteorology the ocean environment navigation  
communications conservation and minimal impact camping conservation seamanship electrical bilge pumps solar panels light  
sources boat repairs leadership risk management basic safety and survival strategies as well as a brief overview about the  
history and various types of canoeing There is also a comprehensive glossary to assist the reader in understanding the terms  
and concepts discussed in the main text Woodhouse's work differs from most manuals about sea kayaking in that it is written  
from the perspective of someone who paddles the Southern Hemisphere As such the major differences between the two  
hemispheres weather patterns navigation laws and terminology are discussed as well as compared to their Northern  
Hemisphere counterparts In the end paddling skills are paddling skills hypothermia is hypothermia and twenty five knot  
winds are twenty five knot winds A three metre tidal range can still produce a long haul across mud flats when the tide is  
out and landing through two metre surf is still scary though a lot of fun no matter where you paddle      **Navy Directives**
