Small Talk Learning From My Children About What Matters Most:

Small Talk Amy Julia Becker, 2014 Small Talk delves into the big questions children ask the thoughts they provoke and the laughter investigation and soul searching that follow for parent and child alike **Small Talk** Amy Julia Becker, 2014-10-28 Almost every day one of Amy Julia's children says something or asks something that prompts her to think more carefully Why Mommy crying Marilee when the family learned a young boy had died of cancer Booful Mommy Beautiful Mommy as Penny proclaimed just as Amy Julia was looking in the mirror and critiquing her post pregnancy body in her head What lasting mean William when he heard a song in church about God being an everlasting God These conversations deepen her relationships with her children but they also deepen and refine her own understanding of what she believes why she believes it and what she hopes to pass along to the next generation Small Talk is a narrative based upon these conversations It is not a parenting guide It does not offer prescriptive lessons about how to talk with children Rather it tells stories based upon the questions and statements Amy Julia's children have made about the things that make life good such as love kindness beauty laughter and friendship the things that make life hard such as death failure and tragedy and what we believe such as prayer God and miracles Amy Julia explores three parts body mind spirit as she moves in rough chronological order through the basic questions her kids asked when they were very young to the intellectual and then spiritual questions of later childhood It invites other parents into these same conversations with their children with God and with themselves Moving from humorous exchanges to profound questions to heart wrenching moments Amy Julia encourages parents to ask themselves and to talk with their children about what matters most **White Picket Fences** Amy Julia Becker, 2018-10-02 A Gentle Invitation into the Challenging Topic of Privilege The notion that some might have it better than others for no good reason offends our sensibilities Yet until we talk about privilege we'll never fully understand it or find our way forward Amy Julia Becker welcomes us into her life from the charm of her privileged southern childhood to her adult experience in the northeast and the denials she has faced as the mother of a child with special needs She shows how a life behind a white picket fence can restrict even as it protects and how it can prevent us from loving our neighbors well White Picket Fences invites us to respond to privilege with generosity humility and hope It opens us to questions we are afraid to ask so that we can walk further from fear and closer to love in all its fragile and mysterious possibilities **Disquiet Time** Jennifer Grant, Cathleen Falsani, 2014-10-21 An engaging and hilarious collection that encourages readers to tackle those strange awkward worrying yet endlessly compelling passages of the Bible The Bible is full of not so precious moments from murder and mayhem to sex and slavery Now an incredible cast of contributors tackles the parts of the Bible that most excite frustrate or comfort like What the heck is the book of Revelation really about The answer will surprise you How do we come to grips with the Bible's troubling or seemingly troubling passages about the role of women Why did the artist of the oldest known picture of Jesus intentionally paint him with a wonky eye and what does it tell us about beauty Disquiet Time was written by

and for Bible loving Christians agnostics skeptics none of the aboves and people who aren t afraid to dig deep spiritually ask hard questions and have some fun along the way

The First 100 Days in the Main Office Alan Jones, 2017-12-01 This book presents a series of cultural situations that could occur within the first one hundred days of a school year responding to entrenched vocabularies and behaviors addressing professional and instructional bad habits enacting alternative teaching scripts leveraging a policy blindside redefining the goals and practices of teams and implementing outside the box programs Each cultural situation offers a new school leader the opportunity to redefine the goals values and practices of an entrenched school culture the Central High way Administrators reading the title of this book may view one hundred days as an arbitrary number picked out of administrative thin air I argue that disrupting and replacing organizational and instructional routines is a race against time Every school day that goes by without some sign of creative destruction is one more day that comfortable organizational and instructional routines live on in main offices and classrooms The idea for this book originated from a question I asked a former student of mine who had just signed a contract to become the principal of a high school We were discussing the complexities of

changing a school culture when I asked the following question What would you do on the first day in your new office to change your school s culture The response to that question described a series managerial routines that all new administrators have learned to perform as they move from the classroom to the main office organize the office meet staff tour the building write a newsletter examine data and visit community venues Nothing in this conversation described strategies for redefining the beliefs and values of an entrenched school culture With this conversation in mind I made it a point in my formal and informal contacts with school administrators to always ask the question What would you do in the first day in your new office to change your school s culture The most common responses involved reviewing district documents touring facilities meeting staff listening to stakeholders and managing systems In each conversation school leaders populated their responses with the current jargon of school reform learning communities data mining standards based curriculum differentiated learning common core standards formative assessment race to the top continuous improvement etc While these responses encompass reasonable behaviors on the first day in the main office not one of these actions possesses the capacity to connect educational values expressed in school mission statements why are we here to daily organizational and instructional routines Each activity gives the appearance of leading but produces no connections between beliefs values and practices Although none of these responses would make or break a school culture they do represent a pattern of thinking and behaving that holds out little possibility of fundamentally changing a school s culture
