Modeling and Prototyping New Smart Learning Management Systems Ouadoud, Mohammed, Chkouri, Mohamed Yassin, 2021-05-21 We are currently witnessing the launch and development of many new learning management system LMS innovations whose main objective is to meet society s requirements and the knowledge economy which is fully emerging Understanding new LMS innovations is essential for the improvement of the training and learning processes To effectively implement these new LMSs in the classroom teachers and trainers need access to real life cases in which these methods were successfully used New smart LMSs should be easy to use and to administer online educational content to ensure better adaptation to course teaching and learning styles Therefore it is necessary to find a method of modeling for all types of LMS By combining learning theories that have long inspired the design of computer applications and putting them into perspective with emerging education features a new smart LMS can

be developed and studied Modeling and Prototyping New Smart Learning Management Systems is a critical scholarly resource that examines current advances in educational innovation and presents cases that allow for the improvement of personalized and active learning It examines diverse issues of social organizational economic cultural and technological context related to internal and external management of learning and teaching and their technological improvements The chapters cover issues methods models constructs solution applications or specific architectures and theories in LMS and feature a wide range of topics such as higher education teacher education and learning strategies This book is ideal for graduate level students researchers and industry practitioners engineers research scientists academicians educational administrators educational professionals teachers and professors and researchers involved in practical applications of engineering pedagogical and didactic aspects in learning management systems

Industry 5.0 for Smart Healthcare Technologies Sherin Zafar,S. N. Kumar,A. Ahilan,Gulsun Kurubacak Cakir,2024-08-13 In this book the role of Artificial Intelligence AI Internet of Things IoT and Blockchain in smart healthcare is explained through a detailed study of Artificial Neural Network Fuzzy Set Theory Intuitionistic Fuzzy Set Machine Learning and Big Data technology Industry 5 0 for Smart Healthcare Technologies Utilizing Artificial Intelligence Internet of Medical Things and Blockchain focuses on interesting applications of AI promising advancements in IoT and important findings in Blockchain technology When applied to smart healthcare technologies Industry 5 0 offers numerous benefits that can revolutionize the healthcare industry This book provides readers with insights and tools for enhanced patient care remote patient monitoring predictive analytics and early intervention of diseases seamless data sharing and interoperability telemedicine and virtual care and a safer and more secure healthcare ecosystem The authors examine novel computational algorithms for the processing of medical images as well as novel algorithms for the processing of biosignals in detection of diseases This book also explores systems for processing physiological parameters and discusses applications of AI techniques in the broader healthcare industry The authors also investigate the importance of Augment Reality Virtual Relativity AR VR in the healthcare sector and examine the futuristic applications of Industry 5 0 in the healthcare sector This book is intended for researchers and professionals working in interdisciplinary fields of computer engineering science and healthcare It will provide them with the tools to enhance diagnostics optimize treatment plans and empower patients to actively participate in their healthcare journey

Hybrid ADCs, Smart Sensors for the IoT, and Sub-1V & Advanced Node Analog Circuit Design Pieter Harpe,Kofi A. A. Makinwa,Andrea Baschiroto,2017-09-18 This book is based on the 18 tutorials presented during the 26th workshop on Advances in Analog Circuit Design Expert designers present readers with information about a variety of topics at the frontier of analog circuit design with specific contributions focusing on hybrid ADCs smart sensors for the IoT sub 1V and advanced node analog circuit design This book serves as a valuable reference to the state of the art for anyone involved in analog circuit research and development

Urban Commons, Future Smart Cities and Sustainability Uday Chatterjee,Nairwita

Bandyopadhyay, Martiwi Diah Setiawati, Soma Sarkar, 2023-05-23 This book provides a critical theoretical framework for understanding the implementation and development of smart cities as innovation drivers with long term effects on productivity livability and the sustainability of specific initiatives This framework is based on an empirical analysis of 21 case studies which include pioneer projects from various regions It investigates how successful smart city initiatives foster technological innovation by combining regulatory governance and private agency The typologies of smart city making approaches are thoroughly examined This book presents the holistic approach of smart cities which start from current issue and challenges advanced technological development disaster mitigation ecological perspective social issue and urban governance The book is organized into five major parts which reflect interconnection between theories and practice Part one explains the introduction which reflects the diversity and challenges of the urban commons and its regeneration Part two covers the current and future situation of urban growth agglomeration and urban infrastructure This section includes rethinking urban sprawl moving towards sustainable cities drivers of urban growth and infrastructure urban land use dynamics and urban sprawl and urban infrastructure sustainability and resilience Part three describes climate crisis urban health and waste management This section includes climate change and health impacts in urban areas green spaces an invaluable resource for delivering sustainable urban health health and wellbeing and quality of life in the changing urban environment urban climate and pollution case study sustainable urban waste management and urban sustainability and global warming and urban heat Island Part four covers the ecological perspectives advanced technology and social impact for i e smart building ecosystem services society and future smart cities SSC This section includes urban ecosystem services environmental planning and city management artificial intelligence and urban hazards and societal impact and using geospatial application and urban smart city energy conservation case study Part five covers urban governance smart solutions and sustainable cities It includes good governance especially e governance and citizen participation urban governance space and policy planning to achieve sustainability smart city planning and management and Internet of things IoT advances in smart roads for future smart cities sustainable city planning innovation and management future strategy for sustainable smart cities and lessons from the pandemic the future of smart cities

Intelligent Computing Techniques

for Smart Energy Systems Akhtar Kalam, Khaleequr Rehman Niazi, Amit Soni, Shahbaz Ahmed Siddiqui, Ankit Mundra, 2019-12-16 The book compiles the research works related to smart solutions concept in context to smart energy systems maintaining electrical grid discipline and resiliency computational collective intelligence consisted of interaction between smart devices smart environments and smart interactions as well as information technology support for such areas It includes high quality papers presented in the International Conference on Intelligent Computing Techniques for Smart Energy Systems organized by Manipal University Jaipur This book will motivate scholars to work in these areas The book also prophesies their approach to be used for the business and the humanitarian technology development as research proposal to

various government organizations for funding approval Smart Delivery Systems Jakub Nalepa, 2019-11-21 Smart Delivery Systems Solving Complex Vehicle Routing Problems examines both exact and approximate methods for delivering optimal solutions to rich vehicle routing problems showing both the advantages and disadvantages of each approach It shows how to apply machine learning and advanced data analysis techniques to improve routing systems familiarizing readers with the concepts and technologies used in successfully implemented delivery systems The book explains both the latest theoretical and practical advances in intelligent delivery and scheduling systems and presents practical applications for designing new algorithms for real life scenarios **Technological Innovation for Smart Systems** Luis M. Camarinha-Matos, Mafalda Parreira-Rocha, Javaneh Ramezani, 2017-04-19 This book constitutes the refereed proceedings of the 8th IFIP WG 5.5 SOCOLNET Advanced Doctoral Conference on Computing Electrical and Industrial Systems DoCEIS 2017 held in Costa de Caparica Portugal in May 2017 The 46 revised full papers were carefully reviewed and selected from 95 submissions The papers present selected results produced in engineering doctoral programs and focus on technological innovation for smart systems Research results and ongoing work are presented illustrated and discussed in the following areas collaborative networks computational intelligence systems analysis smart manufacturing systems smart sensorial systems embedded and real time systems energy management energy optimization distributed infrastructure solar energy electrical machines power electronics and electronics *Cognitive Assistant Supported Human-Robot Collaboration* Cecilio Angulo, Alejandro Chacón, Pere Ponsa, 2024-05-13 Cognitive Assistant Supported Human Robot Collaboration covers the design and development of cognitive assistants in the smart factory era its application domains challenges and current state of the art in assistance systems with collaborative robotics and IoT technologies standards platforms and solutions This book also provides a sociotechnical view of collaborative work in human robot teams investigating specific methods and techniques to analyze assistance systems This will provide readers with a comprehensive overview of how cognitive assistants function and work in human robot teams Introduces fundamental concepts of cognitive assistants and human robot collaboration Investigates the optimization capabilities of human cyber physical systems Discusses planning and implementation of cognitive assistant projects Explores concepts and design elements of human collaborative workspaces
