

Connecticut Mastery Test and Smarter Balanced Assessment Comparison

| Design Item | Connecticut Mastery Test | Smarter Balanced Assessment |
|--------------------------------|--|---|
| Format | CMT is primarily paper-and-pencil, but is also available through an online application called MIST for some students. The electronic version is basically the same as the paper-and-pencil but may have slight modifications for special education students. | Smarter Balanced is intended to be administered primarily online with students submitting all responses online. It is also computer adaptive, so the level of difficulty of questions can adjust to each student. All necessary testing tools and Internet access is embedded in the testing application. |
| Types of Questions | CMT includes multiple choice, short answers, and a writing prompt. | Smarter Balanced includes some selected response, short and extended constructed response, technology enhanced questions (students use a technology tool such as a spread sheet, Internet, video, or Power Point), and performance tasks. |
| Scoring | CMT is machine scored for multiple choice sections—answers are right or wrong. Other items are scored with a rubric—short answers or tasks 0, 1, 2 and writing 0-6. | Some of the Smarter Balanced items are right/wrong, but many of the items have several potentially “correct” answers. Written responses, including essays, will be scored using Artificial Intelligence that will evaluate responses for key words, ideas, concepts, structures, organization, etc. |
| Scoring Processing Time | CMT are sent to a vendor to be scored. Score reports are available to state authorities in late May and are provided to districts in early July. | Smarter Balanced items are submitted electronically and scored electronically for the most part. Results are expected to be available within days of being submitted if not immediately. |
| Content | CMT is designed to measure content in the Connecticut State Standards that has been mastered, so it may not reflect the instructional grade level objectives at each grade. | Smarter Balanced is designed to measure the degree of mastery of the Common Core Standards grade level objectives. Students are expected to fall along a continuum of mastery of grade level content. |
| Norming group | CMT tests are given to all Connecticut students. Some norming and adjust of performance levels takes place based on the overall performance of CT students. | Smarter Balanced is to be given in at least 29 states at this time, involving 15 million students. Norming will be done by a larger, multi-state sample which will allow comparisons of mastery and performance across states. |

Smarter Balance Ct Language Test Fourth Grade

Fritz Drasgow

Smarter Balance Ct Language Test Fourth Grade:

Technology and Testing Fritz Drasgow, 2015-08-20 From early answer sheets filled in with number 2 pencils to tests administered by mainframe computers to assessments wholly constructed by computers it is clear that technology is changing the field of educational and psychological measurement The numerous and rapid advances have immediate impact on test creators assessment professionals and those who implement and analyze assessments This comprehensive new volume brings together leading experts on the issues posed by technological applications in testing with chapters on game based assessment testing with simulations video assessment computerized test development large scale test delivery model choice validity and error issues Including an overview of existing literature and ground breaking research each chapter considers the technological practical and ethical considerations of this rapidly changing area Ideal for researchers and professionals in testing and assessment Technology and Testing provides a critical and in depth look at one of the most pressing topics in educational testing today The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Teaching Intercultural Competence Across the Age Range Manuela Wagner, Dorie Conlon Perugini, Michael Byram, 2017-10-19 This ground breaking book is the first to describe in detail how teachers supported by university educators and education advisers might plan and implement innovative ideas based on sound theoretical foundations Focusing on the teaching and learning of intercultural communicative competence in foreign language classrooms in the USA the authors describe a collaborative project in which graduate students and teachers planned implemented and reported on units which integrated intercultural competence in a systematic way in classrooms ranging from elementary to university level The authors are clear and honest about what worked and what didn't both in their classrooms and during the process of collaboration This book will be required reading for both scholars and teachers interested in applying academic theory in the classroom and in the teaching of intercultural competence
