The Field Guide to Rapid Process Improvement Workshops in Healthcare Cameron Stark, Gavin Hookway, Gill McVicar, Hugo Van Woerden, 2023-10-11. This book takes the reader through the process to plan, deliver and follow up a weeklong Lean Quality Improvement event usually termed a Rapid Improvement Event or Rapid Process Improvement Workshop (RPIW). Drawing on the experience of conducting over 100 of these workshops, the book gives readers the information to plan and run their own event. It describes how RPIWs fit in to wider improvement processes and how the reader can maximize these processes in their own organization. These weeklong improvement events are popular in health and social care but there are no textbooks available to support them. There are several books that describe the use of shorter Kaizen events in health care but none that describe the process of delivering weeklong events. The events have a rhythm specific to the one week format and the book seeks to help people to make use of best practice and to avoid common problems. Based on the experiences of the authors, this book includes an introduction to Lean concepts linked to the relevant part of the process, description, examples and templates of forms that can be used in workshops and photographs of actual events.
