

The background of the entire slide is a photograph of a dirt path that curves through a wooded area. The path is light brown and appears to be made of dirt and small stones. On either side of the path, there are trees with green leaves and some bare branches, suggesting a late autumn or early spring setting. The lighting is soft, and the overall atmosphere is quiet and natural.

West,2008 Deceptive in their ease of creation diminutive size and sheer abundance snapshots are often thought of as the most innocent type of photography But snapshots are complex and willful pictures

premeditated fussed over and often predetermined The postures we adopt the gestures we pantomime the exaggerated facial expressions we compose and try to hold for a split second are all meant to express the emotional weight of a certain moment In a time when digital cameras make photography all too easy it is fascinating to look back on a day when image making was more deliberate Now is Then features images from the 1920s through the 1960s the golden age of snapshot photography The photos quirky elegant heartbreaking and heart warming both celebrate and question the conventions of snapshot

photography Texts by well known visual culture critics offer fresh perspectives on the snapshots and their power over us Unlike previous explorations of vernacular photography Now Is Then takes a step forward to look at the broader cultural impact of snapshots why we make them how we use them why they become relics and most importantly what they reveal about us

Surface Imaginations Rachel Alpha Johnston Hurst, 2015-11-01 Versatile trendy and resilient the global cosmetic surgery industry shows no signs of decline especially with its promises not just of aesthetic improvement but of absolute transformation Introducing the concept of surface imagination Rachel Hurst discusses the fantasy that a change to the exterior will enhance the interior or that the outside is more significant because it fashions the inside Drawing on psychoanalysis feminist theory popular culture the history of medicine and interviews with women who have undergone cosmetic procedures Hurst explores the tensions between the two primary surfaces of cosmetic surgery the photograph and the skin The photograph an idealized surface for envisioning the effects of cosmetic surgery allows for speculation and retouching predictably and without pain The skin on the other hand is a recalcitrant surface that records the passage of time and heals unpredictably Ultimately Hurst argues the fantasy of surface imagination corroborates the belief that one's body is mutable and controllable and that control over one's body permits control over one's social emotional and mental suffering Acknowledging the varied experiences and opinions of the patients interviewed but also critiquing the promises made by the industry Surface Imaginations develops an innovative approach to thinking about cosmetic surgical transformations through the seduction of surfaces
