The Evolving Congress Library of Congress. Congressional Research Service, 2014. Small Business Administration 7(a) Loan Guaranty Program Congressional Research Service, 2014-10-09. This report discusses the rationale provided for the 7(a) program, the program's borrower and lender eligibility standards and program requirements and program statistics including loan volume, loss rates, use of proceeds, borrower satisfaction and borrower demographics. It also examines issues raised concerning the SBA's administration of the 7(a) program including the oversight of 7(a) lenders and the program's lack of outcome-based performance measures. In addition, the report surveys congressional action taken during the 111th Congress to enhance small businesses' access to capital, including the providing more than 1.1 billion to temporarily subsidize the 7(a) and 504 Certified Development Companies (CDC) loan guaranty programs, fees and temporarily increase the 7(a) program's maximum loan guaranty percentage to 90%. Funding was exhausted on January 3, 2011, raising the 7(a) program's gross loan limit from 2 million to 5 million and establishing an alternative size standard for the 7(a) and 504 CDC loan programs. This report also examines legislation introduced during the 112th Congress to continue the fee waivers and increase the 7(a) program's SBAExpress and recently discontinued Patriot Express programs' maximum loan amounts. It discusses the Obama Administration's decision to waive the up-front loan guaranty fee and ongoing servicing fee for 7(a) loans of 150,000 or less approved in FY2014 and FY2015, the up-front one-time loan guaranty fee for all veteran loans under the SBAExpress program up to 350,000 from January 1, 2014 through the end of FY2015, called the Veterans Advantage Program, and 50% of the up-front loan guaranty fee on all non-SBAExpress 7(a) loans to veterans exceeding 150,000 in FY2015.

Small Business Administration Congressional Research Service, 2014-10-09. The Small Business Administration (SBA) administers several types of programs to support small businesses, including loan guaranty and venture capital programs to enhance small business access to capital, contracting programs to increase small business opportunities in federal contracting, direct loan programs for businesses, homeowners and renters to assist their recovery from natural disasters, and small business management and technical assistance training programs to assist business formation and expansion. Congressional interest in the SBA's loan, venture capital, training and contracting programs has increased in recent years, primarily because small businesses are viewed as a means to stimulate economic activity, create jobs and assist in the national economic recovery. Many Members of Congress also regularly receive constituent inquiries about the SBA's programs. This report provides an overview of the SBA's business loan guaranty programs, including the 7(a) loan guaranty program, the 504 Certified Development Company (CDC) program, International Trade and Export Promotion Loan programs and the Microloan program, venture capital programs including the Small Business Investment Company program and the

New Markets Venture Capital program entrepreneurial development programs including Small Business Development Centers Women s Business Centers and SCORE government contracting and business development programs including the 8 a Minority Small Business and Capital Ownership Development Program the Historically Underutilized Business Zones HUBZones program the Service Disabled Veteran Owned Small Business Program and the Women Owned Small Business WOSB Federal Contract program and capital access programs including the Surety Bond Guarantee Program The report also discusses programmatic changes resulting from the enactment of P L 111 5 the American Recovery and Reinvestment Act of 2009 P L 111 240 the Small Business Jobs Act of 2010 P L 112 239 the National Defense Authorization Act for Fiscal Year 2013 and P L 113 76 the Consolidated Appropriations Act 2014 In addition it provides an overview of the SBA s budget and references other CRS reports that examine these programs in greater detail Small Business Size Standards

Congressional Research Service,2015-02-02 Small business size standards are of congressional interest because the standards determine eligibility for receiving Small Business Administration SBA assistance as well as federal contracting and tax preferences Although there is bipartisan agreement that the nation s small businesses play an important role in the American economy there are differences of opinion concerning how to define them The Small Business Act of 1953 P L 83 163 as amended authorized the SBA to establish size standards for determining eligibility for federal small business assistance The SBA currently uses two types of size standards to determine SBA program eligibility industry specific size standards and alternative size standards based on the applicant s maximum tangible net worth and average net income after federal taxes The SBA s industry specific size standards determine program eligibility for firms in 1 047 industrial classifications in 18 sub industry activities described in the North American Industry Classification System NAICS The size standards are based on one of four measures 1 number of employees 2 average annual receipts in the previous three years 3 average asset size as reported in the firm s four quarterly financial statements for the preceding year or 4 a combination of number of employees and barrel per day refining capacity Overall the SBA currently classifies about 97% of all employer firms as small These firms represent about 30% of industry receipts The SBA has always based its size standards on economic analysis of each industry s overall competitiveness and the competitiveness of firms within each industry However in the absence of precise statutory guidance and consensus on how to define small the SBA s size standards have often been challenged typically by industry representatives seeking to increase the number of firms eligible for assistance and by Members concerned that the size standards may not adequately target assistance to firms that they consider to be truly small During the 111th Congress P L 111 240 the Small Business Jobs Act of 2010 authorized the SBA to establish an alternative size standard using maximum tangible net worth and average net income after federal taxes for both the 7 a and 504 CDC loan guaranty programs It also established until the SBA acted an interim alternative size standard for the 7 a and 504 CDC programs of not more than 15 million in tangible net worth and not more than 5 million in average net income after federal

taxes excluding any carry over losses for the two full fiscal years before the date of the application It required the SBA to conduct a detailed review of not less than one third of the SBA s industry size standards every 18 months This report provides a historical examination of the SBA s size standards and assesses competing views concerning how to define a small business It also discusses H R 527 the Small Business Regulatory Flexibility Improvements Act of 2015 which would authorize the SBA s Office of Chief Counsel for Advocacy to approve or disapprove a size standard requested by a federal agency for purposes other than the Small Business Act or the Small Business Investment Act of 1958 The SBA s Administrator currently has that authority This report also discusses P L 112 239 the National Defense Authorization Act for Fiscal Year 2013 which requires the SBA to make available a justification when establishing or approving a size standard that the size standard is appropriate for each individual industry classification It addresses the SBA s recent practice of combining size standards within industrial groups as a means to reduce the complexity of its size standards and to provide greater consistency for industrial classifications that have similar economic characteristics
