*Explainable Ambient Intelligence (XAmI)* Tin-Chih Toly Chen, 2024-03-14 This book systematically reviews the progress of Explainable Ambient Intelligence XAmI and introduces its methods tools and applications Ambient intelligence AmI is a vision in which an environment supports the people inhabiting it in an unobtrusive interconnected adaptable dynamic embedded and intelligent way So far artificial intelligence AI technologies have been widely applied in AmI However some advanced AI methods are not easy to understand or communicate especially for users with insufficient background knowledge of AI which undoubtedly limits the practicability of these methods To address this issue explainable AI XAI has been considered a viable strategy Although XAI technologies and tools applied in other fields can also be applied to explain AI technology applications in AmI users should be the main body in the application of AmI which is slightly different from the application of AI technologies in other fields This book contains real case studies of the application of XAmI and is a valuable resource for students and researchers

**Smart Traction Power Supply Systems for High-speed Railways** Shibin Gao, Zhengqing Han, 2025-01-24 Given the increasingly busy railway networks increased axle loads and railway speeds modern railways and urban transport systems require smart and energy efficient traction power supply products and solutions to ensure safe reliable and environmentally sustainable operations Based on the latest development and achievements of China traction power supply system *Smart Traction Power Supply Systems for High speed Railways* focuses on the latest research into smart traction power supply systems Starting from the concept of smart technologies it describes the structure and functions of smart traction power supply systems including smart power supply and transformation facilities smart power supply operation and maintenance management systems smart power supply dispatching systems and high speed communication networks This book covers both theory and the implementation methods and case studies of wide area protection self-healing reconstruction fault prognosis health assessment and power supply dispatching Discusses what is meant by the term smart traction power supply systems and technology trends Reviews the new concept of the traction substation Describes how to develop smart traction power supply systems

**Smart Computing Techniques and Applications** Suresh Chandra Satapathy, Vikrant Bhateja, Margarita N. Favorskaya, T. Adilakshmi, 2021-07-07 This book presents best selected papers presented at the 4th International Conference on Smart Computing and Informatics SCI 2020 held at the Department of Computer Science and Engineering Vasavi College of Engineering Autonomous Hyderabad Telangana India It presents advanced and multi disciplinary research towards the design of smart computing and informatics The theme is on a broader front which focuses on various innovation paradigms in system knowledge intelligence and sustainability that may be applied to provide realistic solutions to varied problems in society environment and industries The scope is also extended towards the deployment of emerging computational and knowledge transfer approaches optimizing solutions in various disciplines of science technology and health care

Smart Graphics Andreas Butz, Brian Fisher, Antonio Krüger, Patrick Olivier, Marc Christie, 2008-08-25 For centuries artists and designers have been creating communicative graphics With the

advent of new forms of media the emergence of paradigms such as ubiquitous computing and the rapid evolution of interaction devices there is a continuous cycle of renewal of the technologies and methods to support artists interaction designers and developers Developing new approaches requires an understanding of the fundamentals of perception and cognition as they relate to interaction and communication technologies together with artificial intelligence and computer graphics techniques to automate reasoning and enhance cognition Smart Graphics is in essence an interdisciplinary endeavor and brings together the fields of computer graphics artificial intelligence cognitive science graphic design and new art The International Symposium on Smart Graphics 2008 was held on August 27-29 in Rennes France It was the ninth event in a series which originally started in 2000 as an American Association for Artificial Intelligence Spring Symposium and has taken place every year since then Due to the high quality of the papers submitted this year the Program Committee decided to accept 17 full papers instead of the usual 15-9 short papers and 3 system demonstrations The acceptance rate for full papers was 34% This year's meeting included a discussion as to the nature of the shape content and future of the event Representatives from different communities were invited to give their opinions and the organizing committee would like to warmly thank them here Such questions as the ongoing viability of the symposium and the consequences of locating Smart Graphics with other larger research events led to interesting debates and have prepared the groundwork for what could be the future of the Smart Graphics conference series

**Disruptive Information Technologies for a Smart Society** Miroslav Trajanović, Nenad Filipović, Milan Zdravković, 2024-09-29 This book aims at meeting the challenge of getting along with today's unprecedented rate of innovation supported by disruptive digital technologies which changed the perception of the productivity and effectiveness and opened a gateway to more than ever dynamic advances in solving the important societal challenges Disruptive Information Technologies for a Smart Society is the proceedings book of the 14th International Conference for Information Society and Technologies that brings together experts from various fields to discuss the latest advancements in industrial AI digitalization in health well being and sport enterprise information systems large language models and security and safety The book and the conference serve as a platform for researchers of all career stages in technical sciences especially Ph.D. students practitioners and industry experts in health care AI and other areas to share and learn on the cutting edge technologies and stay at the forefront of these rapidly evolving fields

Smart Assisted Living Feng Chen, Rebeca I. García-Betances, Liming Chen, María Fernanda Cabrera-Umpiérrez, Chris Nugent, 2019-08-20 Smart Homes SH offer a promising approach to assisted living for the ageing population Yet the main obstacle to the rapid development and deployment of Smart Home SH solutions essentially arises from the nature of the SH field which is multidisciplinary and involves diverse applications and various stakeholders Accordingly an alternative to a one size fits all approach is needed in order to advance the state of the art towards an open SH infrastructure This book makes a valuable and critical contribution to smart assisted living research through the development of new effective integrated and

interoperable SH solutions It focuses on four underlying aspects 1 Sensing and Monitoring Technologies 2 Context Interference and Behaviour Analysis 3 Personalisation and Adaptive Interaction and 4 Open Smart Home and Service Infrastructures demonstrating how fundamental theories models and algorithms can be exploited to solve real world problems This comprehensive and timely book offers a unique and essential reference guide for policymakers funding bodies researchers technology developers and managers end users carers clinicians healthcare service providers educators and students helping them adopt and implement smart assisted living systems      *Smart Card Research and Advanced Applications* Kerstin Lemke-Rust, Michael Tunstall, 2017-03-05 This book constitutes the thoroughly refereed post conference proceedings of the 15th International Conference on Smart Card Research and Advanced Applications CARDIS 2016 held in Cannes France in November 2016 The 15 revised full papers presented in this book were carefully reviewed and selected from 29 submissions The focus of the conference was on all aspects of the design development deployment validation and application of smart cards or smart personal devices      The Ultimate Instant Pot Healthy Cookbook Coco Morante, 2019-10-15 From breakfast to dinner this enticing and extensive collection of 150 healthy favorites for the Instant Pot is a beautifully photographed one stop source for mouthwatering weekday meals The Ultimate Instant Pot Healthy Cookbook sets itself apart from other less comprehensive books with 150 nutritious recipes covering every meal of the day all well tested and authorized by Instant Pot for perfect results every time Instant Pot expert Coco Morante lightens up traditional favorites with nutrient rich recipes made with whole foods natural sweeteners and gluten and dairy free options while retaining the ease of preparation and deliciously home cooked flavors that make the Instant Pot so popular This is the only book you ll need when looking for wholesome breakfasts lunches dinner snacks staples and desserts the whole family will love from Quinoa Muesli Bowls to Tomatillo Chicken Chili to Seafood Risotto to Greek Yogurt Cheesecake With this ultimate cookbook eating well has never been so simple      **Climate-smart production of coffee** Prof Reinhold Muschler, 2022-10-04 Unique focus on achieving more resilient climate smart coffee cultivation Distinctive agroecological approach based on improving cultivation through optimising ecosystem services Comprehensive coverage of the value chain in coffee cultivation from breeding to pest management and post harvest practices      **Smart Computing and Communication** Meikang Qiu, 2021-04-16 This book constitutes the proceedings of the 5th International Conference on Smart Computing and Communication SmartCom 2020 which took place in Paris France during December 29 31 2020 The 30 papers included in this book were carefully reviewed and selected from 162 submissions The scope of SmartCom 2020 was broad from smart data to smart communications from smart cloud computing to smart security The conference gathered all high quality research industrial papers related to smart computing and communications and aimed at proposing a reference guideline for further research
