21st-Century TV Dramas Amy M. Damico,Sara E. Quay,2016-02-12 In its exploration of some of the most influential

popular or critically acclaimed television dramas since the year 2000 this book documents how modern television dramas reflect our society through their complex narratives about prevailing economic political security and social issues Television dramas have changed since the turn of the 21st century for the good many would say as a result of changes in technology the rise of cable networks and increased creative freedom This book approaches the new golden age of television dramas by examining the programs that define the first 15 years of the new century through their complex narratives high production value star power popularity and enthusiastic fan culture After an introduction that sets the stage for the book's content thematic sections present concise chapters that explore key connections between television dramas and elements of 21st century culture The authors explore *Downton Abbey* as a distraction from contemporary class struggles patriarchy and the past in *Game of Thrones* and *Mad Men* and portrayals of the dark hero protagonist in *The Sopranos* *Dexter* and *Breaking Bad* as a few examples of the book's coverage With its multidisciplinary perspectives on a variety of themes terrorism race class gender family dynamics and sociopolitical and socioeconomic topics this book will be relevant across the social sciences and cultural and media studies courses

Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

Focus On: 100 Most Popular Fox Network Shows Wikipedia contributors, **Deconstructing Dads** Laura Tropp, Janice Kelly, 2015-12-24 In the twenty first century fatherhood is shifting from simply being a sidekick in the parental team to taking center stage with new expectations of involvement and caretaking The social expectations of fathers start even before the children are born Mr Mom is now displaced with fathers who don't think of themselves as babysitting their own children but as central decision makers along with mothers as parents *Deconstructing Dads Changing Images of Fathers in Popular Culture* is an interdisciplinary edited collection of essays authored by prominent scholars in the fields of media sociology and cultural studies who address how media represent the image of the father in popular culture This collection explores the history of representation of fathers like the bumbling dad to question and challenge how far popular culture has come in its representation of paternal figures Each chapter of this book focuses on a different aspect of media including how

advertising creates expectations of play and father crime shows and the new hero father and men as paternal figures in horror films The book also explores changing definitions of fatherhood by looking at such subjects as how the media represents sperm donation as complicating the definition of father and how specific groups have been represented as fathers including gay men as dads and Latino fathers in film This collection examines the media's depiction of the good father to study how it both challenges and reshapes the ways in which we think of family masculinity and gender roles [Making Patton](#) Nicholas Evan Sarantakes, 2012-09-26 Forever known for its blazing cinematic image of General George S Patton portrayed by George C Scott addressing his troops in front of a mammoth American flag Patton won seven Oscars in 1971 including those for Best Picture and Best Actor In doing so it beat out a much ballyhooed M A S H irreverent darling of the critics and grossed 60 million despite an intense anti war climate But as Nicholas Evan Sarantakes reveals it was a film that almost didn't get made Sarantakes offers an engaging and richly detailed production history of what became a critically acclaimed box office hit He takes readers behind the scenes even long before any scenes were ever conceived to recount the trials and tribulations that attended the epic efforts of producer Frank McCarthy like Patton a U S Army general and Twentieth Century Fox to finally bring Patton to the screen after eighteen years of planning Sarantakes recounts how filmmakers had to overcome the reluctance of Patton's family copyright issues with biographers competing efforts for a biopic and Department of Defense red tape He chronicles the long search for a leading man including discussions with Burt Lancaster John Wayne and even Ronald Reagan before settling on Scott a brilliant actor who brought to the part both enthusiasm for the project and identification with Patton's passionate persona He also tracks the struggles to shoot the movie with a large multinational cast huge outlays for military equipment and filming in six countries over a mere six months And he provides revealing insider stories concerning for example Scott's legendary drinking bouts and the origins of and debate over his famous opening monologue Drawing on extensive research in the papers of Frank McCarthy and director Franklin Schaffner studio archives records of the Academy of Motion Picture Arts and Sciences contemporary journalism and oral histories Sarantakes ultimately shows us that Patton is more than just one of the best war films ever made Culturally it also spoke to national ideals while exposing complex truths about power in the mid twentieth century [Focus On: 100 Most Popular Television Series by Warner Bros. of the tongue to produce stronger clearer more natural writing This simple idea it turns out has deep repercussions Our culture of literacy Elbow argues functions as though it were a plot against the spoken voice the human body vernacular language and those without privilege making it harder than necessary to write with comfort or power Giving speech a central role in writing overturns many empty preconceptions It causes readers to think critically about the relationship between speech writing and our notion of literacy Developing the political implications behind Elbow s previous books Vernacular Eloquence makes a compelling case that strengthening writing and democratizing it go hand in hand **TV Programming**
