Navigating Academia Writing Supporting Genres Vol 4:

Navigating Academia John M. Swales, Christine B. Feak, 2011 Volume 4 of the revised and expanded edition of English in Today's Research World *Teaching and Researching Writing* Ken Hyland, 2015-11-19 This third edition of *Teaching and Researching Writing* continues to build upon the previous editions' work of providing educators and practitioners in applied linguistics with a clearly written and complete guide to writing research and teaching. The text explores both theoretical and conceptual questions, grapples with key issues in the field today, and demonstrates the dynamic relationship between research and teaching methods and practice. This revised third edition has been reorganized to incorporate new topics including discussions of technology, identity, and error correction, as well as new chapters to address the innovative directions the field has taken since the previous edition's publication. Boxes throughout, including Concepts and Quotes, help to both reinforce readers' understanding of the topics covered by highlighting key ideas and figures in the field, while the updated glossary and resource sections allow readers to further investigate areas of interest. This updated edition of *Teaching and Researching Writing* is the ideal resource for language teachers, practitioners, and researchers to better understand and apply writing research theories, methods, and practices.

Academic Publishing: Issues and Challenges in the Construction of Knowledge Ken Hyland, 2016-02-28 Ken Hyland provides an authoritative discussion of key aspects of writing for academic publication. What are the issues surrounding particular academic genres? What are the processes experienced by scholars writing in these genres on the way to publication? The book explores some of the biggest issues and challenges in academic publication, including the impact of English as a global academic language, the growth of the assessment culture surrounding publication, the practices of knowledge construction at institutional and local levels, the emergence of Open Access and social media publishing. As well as outlining implications for pedagogy in the English language classroom, Hyland fully evaluates the social practices surrounding knowledge creation and the political implications of global publishing. Ken Hyland's book is an important contribution to the literature on academic publishing. It is accessibly written; key concepts and themes are well explained, and the issues that are discussed are clearly connected to the challenges faced by academic writers. Brian Paltridge, Professor of TESOL, University of Sydney. Ken Hyland is the Head of the Centre for Applied English Studies and holds the Chair of Applied Linguistics at the University of Hong Kong. Oxford Applied Linguistics Series Advisers: Anne Burns and Diane Larsen Freeman.

Social Theory for English for Academic Purposes Alex Ding, Michelle Evans, 2022-07-28 This book, written by pioneering architects of original social theory in educational linguistic fields as well as expert practitioners, systematically exposes the sociological commitments of mainstream ideas and theories in English for Academic Purposes (EAP) commitments which are very often not fully examined by the discipline but nonetheless shape practitioners' ideas and their praxis. The initial chapters outline what social theory is, the normative, critical, descriptive, social, and generative purposes it serves, the scope and limits of social theory, and tracing the major historical traditions and recent

currents This mapping of social theory is followed by a detailed argument that makes the case for the centrality of social theory for EAP practitioners and praxis and the need to develop a sociological imagination to enhance knowledge and agency of practitioners The contributions reveal the sociological foundations and commitments that underpin established theories in EAP such as genre theories systemic functional linguistics and academic literacies Each of these three major research streams in EAP is subject to critical analysis linking each of these streams to the sociological commitments that underpin them Finally the book explores the social theories and approaches that have yet to make a full or significant impact on EAP research and practice but would enable practitioners and researchers to understand educational contexts texts structures culture s knowledge production and producers and social agents with greater sociological clarity and sophistication Topics covered include social realism legitimation code theory critical realism ethnography feminism and Bourdieusian concepts for EAP The overarching aim of this volume is to position social theory much more centrally to frameworks and conceptions of the unstable and contested knowledge base for EAP practitioners and to promote a sociological imagination among and for EAP practitioners
