## **Wizard Of Oz Play For Schools:**

**Losers And Winners On The Unknown Road To An Unpredictable Destiny** Joseph Lowe III, 2011-05-25 This is a book that will help both winners and losers. Winners and Losers will teach something to virtually 100% of everyone who reads it. The same percentage should find it entertaining. The book discusses many life-changing events that often greet us as we travel the unknown road. The road may be short or long. No one knows the length of his/her road. However, the one thing that is certain is that everyone travels the unknown road that ends with an unpredictable destiny. On the road, you may meet thugs, hoodlums, rogues, rapists, murderers, dead beat dads, and other undesirables. You may also meet good Samaritans, philanthropists, near perfect people, and other pleasant people on the unknown road to an unpredictable destiny. Death of family members and friends may wreck your life while on the road. Sickness and disease may show up unannounced and hang around briefly or set up residence until death takes their place. Everyone is a racist, sexist, and possesses characteristics of ageism. If anyone denies this, then he/she is also a liar because there are degrees of racism falling between 1% and 99%. No one is 0% racist or 100% racist. Think about it. Pennsylvania School Journal, 1910

**A Moral Case for Play in K-12 Schools** Judd Kruger Levingston, 2023-07-21 In *A Moral Case for Play: The Urgency of Advancing Moral Ecologies of Play in K-12 Schools*, Levingston argues that schools must make room for character-building play because of its essential role in moral development. He utilizes field-based research, including interviews and observations from hallways, classrooms, playgrounds, and lunchrooms at Catholic, Jewish, Progressive, Quaker, single gender, and other non-sectarian schools. Levingston's timely new insights and explanations of the moral ecologies of play build on and intersect with the work of anthropologists, fellow educators, and education researchers, folklorists, medical researchers, psychologists, and STEAM educators. This book demonstrates that beyond physical and social play at recess, students need to engage in role

playing along with language number kinesthetic and imaginative play Offering a new definition of play Levingston s research shows how schools can create unique ecologies that promote moral growth creativity and a sense of community in any academic program
