Kirkus Reviews **Incarcerated Women** Erica Rhodes Hayden, Theresa R. Jach, 2017-02-06 The story of the rise of prisons and development of prison systems in the United States has been studied extensively in scholarship but the experiences of female inmates in these institutions have not received the same attention Historically women incarcerated in prison jails and reformatories accounted for a small number of inmates across the United States Early on they were often held in prisons alongside men and faced neglect exploitation and poor living conditions Various attempts to reform them ranging from moral instruction and education to domestic training faced opposition at times from state officials prison employees and even male prison reformers Due to the consistent small populations and relative neglect the women often faced their experiences in prison have been understudied This collection of essays seeks to recapture the perspective on women s prison experience from a range of viewpoints This edited collection will explore the challenges women faced as inmates their efforts to exert agency or control over their lives and bodies how issues of race and social class influenced experiences and how their experiences differed from that of male inmates Contributions extend from the early nineteenth century into the twenty first century to provide an opportunity to examine change over time with regards to female imprisonment Furthermore the chapters examine numerous geographic regions allowing for readers to analyze how place and environment shapes the

inmate experience **Resistance Behind Bars** Victoria Law, 2010-07 In 1974 women imprisoned at New York's maximum security prison at Bedford Hills staged what is known as the August Rebellion. No Safe Haven Lori B. Girshick, 2002 This controversial work examines for the first time the often taboo subject of bisexual and lesbian women who are sexually assaulted by other women

Women in Prison United States. Congress. House. Committee on the Judiciary, 1994 **Women in Prison** Barbara H. Zaitzow, Jim Thomas, 2003 It is old news that the conditions and policies of women's prisons are different from those for incarcerated men. Less evident, however, is how gender differences shape those policies and how gender identity and roles shape women's adaptation and resistance to prison culture and control. The papers in this collection explore how the gender-based attitudes that women bring to prison frame how they respond to the prison environment and how gender stereotypes continue to affect the treatment and opportunities of incarcerated women today. It looks particularly at how the personal and social problems imported into the prison setting become part of the intricate web of prison culture and how extensively women's prison experience reflects the control and domination they experienced in the outside world

The Incarcerated Woman Susan F. Sharp, Roslyn Muraskin, 2003 The chapters in this collection, written specifically for this book, examine the needs of women prisoners and the programs available to meet those needs. By examining existing programs in the context of the special needs of women prisoners, they illustrate that parity in programming is not simply having the same programs that exist in men's prisons

In the Mix Barbara A. Owen, 1998-01-01 Describes life inside the world's largest women's prison from the point of view of the women themselves

[Women's Prison](#) Gene Kassebaum, 2017-07-28 A thoroughly researched pioneering work based on personal interviews with inmates and prison personnel and on data compiled from questionnaires and inmate record files. *Women's Prison* reveals that homosexual liaisons are the primary foundation of the social structure of female inmates, shows that homosexual behavior can be a superficial kind of adjustment to particular situational privations, amplifies and broadens the application of earlier findings on men's prisons, opens the way for future studies involving the delineation of homosexual roles in the free community. This study began with both of the authors' interest in gathering data on women in prison to see whether there were female prisoner types consistent with the reported characteristics of male prisoners. Early in the course of this study it became apparent that the most salient distinction to be made among the female inmates was between those who were and those who

were not engaged in homosexual behavior in prison and further of those who were so involved between the incumbents of masculine and feminine roles. It has become increasingly apparent that prison behavior is rooted in more than just the conditions of confinement. Unlike their male counterparts who establish the so-called inmate code, women prisoners suffer intensely from the loss of affectional relationships and form homosexual liaisons as the primary foundation of their social organization. The great majority of homosexually involved inmates have their first affair in prison, returning to heterosexual roles outside prison. *Women's Prison* is a revealing study of social structure and homosexuality for sociologists of vital interest to social workers, parole officers and chaplains dealing with female inmates as well as penologists and criminologists and provocative reading for the non-specialist.

Women and Prison Jada Hector, 2020-06-22 This edited volume presents research about life in prison for women, discussing both incarcerated women and those working in prisons. It addresses women's paths through the criminal justice system from sentencing through post-incarceration and reintegration into society, highlighting the differences in women's experience of prison compared to their male counterparts and noting both the positive and negative changes implemented for women behind bars. Covering research on stigma, pop culture, motherhood, sexuality and gender, access to healthcare, vocational training and educational opportunities, this text takes both a local and international view. *Women and Prison* is a comprehensive volume suitable for criminal justice researchers, mental health professionals, students of criminology, women's studies, sociology and those seeking a career in corrections.

Their Sisters' Keepers Estelle B. Freedman, 1981 This study of prison reform adds a new chapter to the history of women's struggle for justice in America.

Woman in Prison Caroline H. Woods, 2013-11-27 While I was waiting that advertisement returned to my reflections and urged its cause imperatively as a command. It was a call to me, irresistible as the voice that awoke the young Israelitish Prophet from his slumbers. In another moment the struggle with my pride was over and my spirit answered: I will go even to lust-besotted Sodom if thou leadest Light of my path. I seated myself in a street car, went to the prison, applied for the place and obtained it. Day by day I wrote down what I saw and heard, what I said and did. Why? In obedience to the same Voice that called me to the work. The tale is before you. May it touch the heart of every one who reads the story and melt it into a compassion which will labor for the redemption of the prisoner into a pity which will echo around the cry: Open the prison doors, not to let the prisoner go free, but to let in to him the light of moral knowledge and the discipline of Christian charity.

Women Prisoners Aliyah Ali Bilgrami, Shagufta Nasreen, 2023-11-20 This book examines the female criminals and the prison conditions and issues they must endure through the lens of a case study in the Karachi women's prison in Pakistan. Kassebaum, 1965 One of several reports of the California study of correctional effectiveness a project supported by the National Institute of Mental Health U S P H S Grant OM 89 in the School of Public Health University of California Los Angeles *Making It in the Free World* Patricia O'Brien, 2001-02-01 This is the first study to address the important but neglected topic of how women return to the free world after single or multiple experiences of incarceration It uses first person narratives and a comprehensive review of contemporary theory to provide useful suggestions for practitioners and policymakers concerned with responding to the increasing number of women in the criminal justice system Patricia O'Brien provides an in depth description of the experiences of women with a variety of criminal histories to elucidate elements that contributed to their desistance from crime The book challenges practitioners to be more proactive in recognizing the needs of this population and more responsive to these needs O'Brien suggests policy changes especially related to alternatives to incarceration The first person narratives of non recidivist women provide concrete and powerful examples of the crucial mix of ingredients any woman needs to remain free and empowered in a context of powerlessness and increasing social control Punishment, Prisons, and Patriarchy Mark E. Kann, 2005-08 Punishment Prisons and Patriarchy tells the story of how first generation Americans coupled their legacy of liberty with a penal philosophy that promoted patriarchy especially for marginal Americans American patriots fought a revolution in the name of liberty Their victory celebrations barely ended before leaders expressed fears that immigrants African Americans women and the lower classes were prone to vice disorder and crime This spurred a generation of penal reformers to promote successfully the most systematic institution ever devised for stripping people of liberty the penitentiary Today Americans laud liberty but few citizens contest the legitimacy of federal state and local government authority to incarcerate 2 million people and subject another 4.7 million probationers and parolees to scrutiny surveillance and supervision How did classical liberalism aid in the development of such expansive penal practices in the wake of the War of Independence
