With The Irish Set In Set Dance Land:

With the Irish Set Richard Edward Devlin, 2014-10-13 Four years ago the author started out on a journey to learn Irish set dancing at an age he says When most men and women are pulling the stool closer to the turf fire and dreaming of life when life was young The journey took him from Nova Scotia to Milwaukee Killarney Ballinasloe and many lesser known places in between including a wacky little burg in the Catskills where Irish dreamers had painted green shamrocks on the pavement all up and down the principal street Along the way Devlin says he met the wildest assortment of Irish and Irish American characters imaginable and chapter by chapter Devlin brings these fascinating people and their sometimes amusing but always endearing ways close to your chair and into your heart Like all of us who cling to our sense of an Irish heritage Devlin says Like a moth to a bright light I am drawn to Irish ways As a reader if you share this life view you will love this book

Penny Whistle Book Oak Publications, 1977-06-01 A complete guide to the penny whistle for beginning to advanced players Contains information on modal playing and 56 penny whistle tunes *An Gael* , 1983 **The Spectre of Sound** Kevin Donnelly, 2019-07-25 This book is a major new study dealing with notions of film music as a device that desires to control its audience using a most powerful thing emotion The author emphasises the manipulative and ephemeral character

of film music dealing not only with traditional orchestral film music but also looks at film music's colonisation of television and discusses pop music in relation to films and the historical dimensions to ability to possess audiences that have so many important cultural and aesthetic effects. It challenges the dominant but limited conception of film music as restricted to film by looking at its use in television and influence in the world of pop music and the traditional restriction of analysis to valued film music either from name composers or from the golden era of Classical Hollywood. Focusing on areas as diverse as horror pop music in film, ethnic signposting, television drama and the soundtrack without a film, this is an original study which expands the range of writing on the subject.
