WXMA\_11013007\_0001\_EPI

The drifter known simply as Logan has lived many lives in his time — a cannibal, a covert operative, a living weapon — but the only life that ever mattered to him is the one he shared with Professor Xavier's students, the X-Men. It took a surrogate family for this rapidly healing mutant to truly recover from the

process that stole his memory and bonded adamantium to his skeleton. Now the Canadian brawler with the razor-sharp claws finds himself the unlikely head of that family, and only WOLVERINE and the X-Men can protect the world from its own bleak future by continuing Xavier's mission.
