The Only Woman in the Room Eileen Pollack, 2016-09-06 ONE OF WASHINGTON POST S NOTABLE NONFICTION BOOKS OF THE YEAR A bracingly honest exploration of why there are still so few women in STEM fields beautifully written and full of important insights Washington Post In 2005 when Lawrence Summers then president of

Harvard asked why so few women even today achieve tenured positions in the hard sciences Eileen Pollack set out to find the answer A successful fiction writer Pollack had grown up in the 1960s and 70s dreaming of a career as a theoretical astrophysicist Denied the chance to take advanced courses in science and math she nonetheless made her way to Yale There despite finding herself far behind the men in her classes she went on to graduate summa cum laude with honors as one of the university's first two women to earn a bachelor of science degree in physics And yet isolated lacking in confidence starved for encouragement she abandoned her ambition to become a physicist Years later spurred by the suggestion that innate differences in scientific and mathematical aptitude might account for the dearth of tenured female faculty at Summer's institution Pollack thought back on her own experiences and wondered what if anything had changed in the intervening decades Based on six years interviewing her former teachers and classmates as well as dozens of other women who had dropped out before completing their degrees in science or found their careers less rewarding than they had hoped The Only Woman in the Room is a bracingly honest no holds barred examination of the social interpersonal and institutional barriers confronting women and minorities in the STEM fields This frankly personal and informed book reflects on women's experiences in a way that simple data can't documenting not only the more blatant bias of another era but all the subtle disincentives women in the sciences still face The Only Woman in the Room shows us the struggles women in the sciences have been hesitant to admit and provides hope for changing attitudes and behaviors in ways that could bring far more women into fields in which even today they remain seriously underrepresented

Boston Women's Heritage Trail Polly Welts Kaufman, Jean Gilbran, Sylvia McDowell, 2006 Women have played active prominent roles in Boston history since the days of Anne Hutchinson the colonial freethinker who bravely challenged the authority of ruling Puritan ministers in 1638 Hutchinson's action is only one of more than 200 stories of Boston women told in the newly expanded guidebook from the Boston Women's Heritage Trail Several maps indicate the sites where these historic women walked worked and lived while photographs and other illustrations help bring these women to life once again The updated guidebook will take you on seven walks through seven distinctly different Boston neighborhoods Hutchinson's story is told by her statue on the grounds of the Massachusetts State House while Rose Fitzgerald Kennedy's is found at the site of her birthplace in the North End An underground railway stop on Beacon Hill reveals the dramatic escape of enslaved Ellen and William Craft to Boston Other trails lead walkers to new statues of Underground Railroad conductor Harriet Tubman in the South End and of Abigail Adams Lucy Stone and Phillis Wheatley three women who used the pen for change portrayed in bronze in the recently dedicated Boston Women's Memorial on Commonwealth Avenue The Boston Women's Heritage Trail guidebook is a must for visitors students and residents of Boston alike Its lively descriptions show the significant role Boston women played in shaping the history and the future of both Boston and the nation

Women Medievalists and the Academy, Volume 2 Jane Chance, 2018-05-22 Long overlooked in

standard reference works pioneering women medievalists finally receive their due in *Women Medievalists and the Academy*. This comprehensive edited volume brings to life a diverse collection of inspiring figures through memoirs, biographical essays, and interviews. Covering many different nationalities and academic disciplines including literature, philology, history, archaeology, art history, theology, or religious studies, and philosophy, each essay delves into one woman's life, intellectual contributions, and efforts to succeed in a male-dominated field. Together, these extraordinary personal histories constitute a new standard reference that speaks to a growing interest in women's roles in the development of scholarship and the academy. The collection begins in the eighteenth century with Elizabeth Elstob and continues to the present and includes, among more than seventy profiles, such important figures as Anna Jameson, Lina Eckenstein, Georgiana Goddard King, Eileen Power, Dorothy L. Sayers, Dorothy Whitelock, Susan Mosher Stuard, Marcia Colish, and Caroline Walker Bynum, among others.

Women Medievalists and the Academy Jane Chance, 2005. Pioneering. An important and timely collection that profiles the lives and professional careers of women medievalists in the last centuries. Maureen Mazzaoui, University of Wisconsin-Madison.

Moving the Mountain Flora Davis, 1999. *Moving the Mountain* tells the story of the struggles and triumphs of thousands of activists who achieved half a revolution between 1960 and 1990. In this award-winning book, the most complete history of the women's movement to date, Flora Davis presents a grass roots view of the small steps and giant leaps that have changed laws and institutions as well as the prejudices and unspoken rules governing a woman's place in American society. Looking at every major feminist issue from the point of view of the participants in the struggle, *Moving the Mountain* conveys the excitement, the frustration, and the creative chaos of feminism's Second Wave. A new afterword assesses the movement's progress in the 1990s and prospects for the new century.

Records of Trial from Thomas Shepard's Church in Cambridge, 1638-1649 Lori Rogers-Stokes, 2020-10-23. This book presents a revolutionary new reading of manuscript records left by puritan minister Thomas Shepard in Cambridge, Massachusetts, that have been studied for decades as his on-the-spot recording of oral relations of faith delivered by candidates for church membership. This book proves that these records are not relations but Shepard's personal record of sessions of trial meetings with candidates still working out their spiritual seeking. New transcriptions of the original manuscript records and corresponding never-before-published writing by Shepard dispel much of the confusion produced by the published transcriptions. Close readings of the manuscripts contrasted with the published transcriptions set the stage for a new understanding of puritan spiritual preparation in Shepard's Cambridge church. The book concludes with a challenge to the negative reading of the women's records that is central to established scholarship, revealing their powerful, confident spiritual identities and voices.

Feminists Who Changed America, 1963-1975 Barbara J. Love, 2006-09-22. Documenting key feminists who ignited the second wave women's movement, Barbara J. Love's *Feminists Who Changed America, 1963-1975* will be the first comprehensive directory to document many of the founders and leaders, including both well-known and grassroots organizers of the second wave women's movement. It tells the stories of

more than two thousand individual women and a few notable men who together reignited the women's movement and made permanent changes to entrenched customs and laws. The biographical entries on these pioneering feminists represent their many factions, all parts of the country, all races and ethnic groups, and all political ideologies. Nancy Cott's foreword discusses the movement in relation to the earlier first wave and presents a brief overview of the second wave in the context of other contemporaneous social movements.

DHEW Publication, 1977. Early Planning Utopias Dorina Pojani, Cathy Keys, Rory Little, 2025-07-15. There is little doubt that urban planning has historically failed women. To liberate the profession from patriarchal influences, it is necessary to revisit the preconceptions that shaped early efforts to design new cities or improve existing ones. This book critiques the work of twenty male planning luminaries who proposed urban models, interventions, and approaches on both sides of the North Atlantic during the Second Industrial Revolution. These early visions, often presented as emancipatory or utopian, set European and North American cities, as well as their colonial counterparts, on an inexorable masculinist path. The grand urban plans and projects of the late 19th and early 20th centuries were largely bankrolled by wealth extracted from colonial enterprises in Africa, Asia, and Latin America. A reverence for geometry, order, and standardization alongside a monumental scale reflected a hegemonic and monolithic vision of the city with little tolerance for cultural or physical difference. Limitless urban growth and the rapid, effortless movement of people were valorised, and for the first time in history, roads became more important than homes. Many of these same planners, indifferent to cultural and physical differences, readily accepted the continuation of class divisions in cities. Comprehensive plans for both small and large settlements were hierarchical, with the wealthiest or most powerful occupying central positions of power. Functional segregation, later institutionalized as zoning, enforced spatial divisions between the public male and private female spheres. Even as the planning agenda prioritized men's issues related to industry and commerce, domestic ideology was promoted during this period. The book also highlights the work of several female activists and reformers from the same era. Although these women rarely envisioned full-blown urban utopias or produced extensive writings on planning, they worked to improve built environments for all. Female reformers were more attuned to the lived experiences of city dwellers than male planners, architects, and engineers. While men focused on structures and infrastructure, women were concerned with the human condition. Rather than expanding or clearing out the existing urban fabric, women sought to restore it. Practically, women extended their reproductive duties from the home to the entire city, envisioning it as a collective living space where everyone shared responsibility for one another's daily welfare. This book calls for a return to that planning philosophy at a time when numerous techno-utopias are being imagined and built, often backed by major private corporations or individual male billionaires.

The Female Imagination Patricia Meyer Spacks, 2022-09-12. Is there such a thing as a female literary imagination, a special brand of insight and intuition that characterises women's writing? Is there something about a novel, whether by Jane Austen, Charlotte Brontë, or Doris Lessing, that tells us that it could only have been written by a woman? Do the

subject matter form and style that women choose throw light on the way they think and feel In this brilliant and highly readable book originally published in 1976 Patricia Spacks analyses the female view of the world Juxtaposing sometimes in startlingly original combination some eighty books written between the seventeenth century and the present day she uses both literary and psychological analysis to explore patterns that recur again and again in the stories women tell whether about their own lives or the lives of their fictional characters She dissects female experience in the twentieth century as viewed by an array of writers ranging from Kate Millet to Virginia Woolf examines the interplay of social passivity and psychic power that dominates characters such as Maggie Tulliver and Jane Eyre the altruism that impels Jane Austen s and Mrs Gaskell s heroines the acceptance of Virginia Woolf s Mrs Ramsey the personal and social conflicts that beset so many of the adolescent girls that figure in both nineteenth century and contemporary literature reveals the complex motives that can be bound up in a women s deliberate choice of the artist s role as appears in the writings of Isadora Duncan s and Dora Carrington Marie Bashkirtseff and Mary McCartney and the surprising forms freedom can take as for Beatrice Webb in the East End of London or Isak Dinerson in the wilds of Africa The voices echo and re echo across the years in fascinating counter point Their range is enormous rebels and reformers actresses and painters Society ladies and unknown girls in small towns novels poems memoirs diaries and letters both English and American and alongside classics such as Wuthering Heights and well known modern works such as The Bell Jar Patricia Spacks introduces an intriguing selection of relatively unknown writers such as Napoleon s psychoanalyst great niece Marie Bonaparte the Victorian arch fantasist Mary MacLane and the autobiography of a seventeenth century Duchess The Female Imagination is much more than a study of women s writing It is an inquiry into the nature of female thought self expression and experience As such it should appeal to every educated woman and to many men too
